Information School
UNIVERSITY of WASHINGTON

Welcome from the Dean

Welcome to the University of Washington Information School Employer Connections Fair! This fair is designed to provide iSchool students and alumni with the opportunity to connect with employers in information fields about career opportunities, job openings, internships, fieldwork placements, research, and much more. I think you will find that this will be a day of great opportunity: iSchool students and alumni will learn about some of the best workplaces in the world to practice their profession; and employers will discover the incredible talent, drive, and creativity that characterize our students and alumni.

I hope that you take the opportunity to network and make lasting connections.

Sincerely,

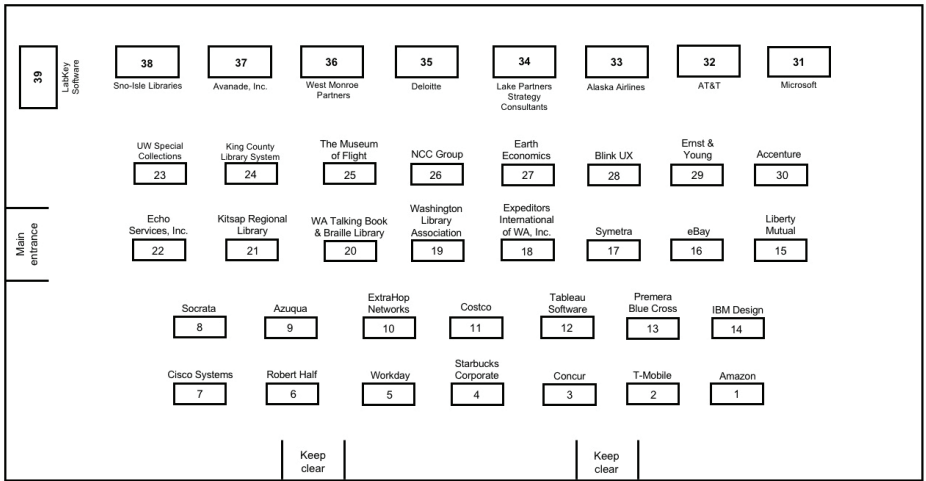

Harry Bruce
Dean and Professor
The Information School
University of Washington

Sponsors

Thank You

The Information School would like to thank all of our participating organizations for joining us at the Employer Connections Fair 2016. A special thanks to our sponsors: Alaska Airlines, AT&T, Avanade Inc., Deloitte, LabKey Software, Lake Partners Strategy Consultants, Microsoft, Sno-Isle Libraries, and West Monroe Partners. The Employer Connections Fairs is hosted by the Information School Student Services Office.

🌐 = Job opportunities for international students

Accenture

Accenture is a leading global professional services company, providing a broad range of services and solutions in strategy, consulting, digital, technology and operations. We are hiring for internships in the Seattle office.

Alaska Airlines*

Alaska Airlines is one of the most respected names in aviation and flies throughout its namesake state and the Lower 48, as well as to Hawaii, Canada and Mexico. Our roots date to 1932 and are symbolized by the Eskimo painted on the tails of our aircraft. Guided by what we call the “Alaska Spirit,” we pride ourselves on providing a lifeline to remote communities while delivering renowned service to everyone we fly. This commitment has brought us national and international recognition. We’ve been honored with a variety of awards by readers of Travel + Leisure, Conde Nast Traveler, USA Today and others. Alaska is the dominant West Coast airline and, together with its sister carrier Horizon Air, flies to more than 90 destinations. The two airlines are subsidiaries of Alaska Air Group Inc. (NYSE:ALK) with annual revenues exceeding \$4 billion. We will be looking for potential intern candidates for the summer of 2016 in various roles in our ITS division.

Amazon

Our overall mission is simple: we want Amazon.com to be the place where our customers can find, discover and buy anything online! Whatever our customers tell us they want, we will find the means to deliver. In doing so, we will create the most customer-centric company in the universe, a company that customers from all over the globe will recognize, value, and trust for both our products and our service. With your help, Amazon.com will continue to enable people to discover new worlds and create change in a meaningful and lasting way.

AT&T*

AT&T is bringing it all together — helping people mobilize their worlds — with advanced mobile services, next-generation TV and high-speed Internet services, and smart solutions for businesses. AT&T is constantly innovating to find new connections in the Internet of Things. In 2014, we were issued an average of more than one patent per day. We have more than 10,000 patents issued worldwide. AT&T Labs and our Foundry centers have the brightest minds in the industry working to develop technologies, apps, products and services that are improving lives at home, work and play. We are actively recruiting on campus for our Technology Development Programs, which are designed for the professional growth and development of our nation’s STEM leaders. Join us and help drive the innovation that keeps AT&T at the leading edge of technology and service. www.att.jobs/TDP

Avanade, Inc.*

Avanade helps customers realize results in a digital world through business technology solutions and managed services that combine insight, innovation and expertise focused on Microsoft technologies. We were created in 2000 as a joint venture between Accenture LLP and Microsoft to combine deep industry and business expertise with the best enterprise software solutions. Today, Avanade is majority owned by Accenture. At Avanade, business and technology consulting isn’t just your career, it’s your passion. And that means more than just working with new innovations. It means using technology to solve business problems in ways that make a real difference. At Avanade, we are passionate about pushing the limits of Microsoft technologies to help our customers achieve their goals, thrive on open dialogue and debate. We share best practices and solve problems through teamwork, and are committed to growth — as an organization and for each individual.

Azuqua

Azuqua, a Seattle-based Techstars company, is seeking to democratize cloud connectivity and make it accessible to business users. With the proliferation of single purpose SaaS applications, businesses require a platform that allows users to quickly create processes without writing any code. Azuqua provides this and more with an intuitive visual designer on which you can combine a library of Excel-like functions and various SaaS services to build smart business processes in minutes. We are a company that is committed to transparency, technical excellence and personal growth in a fun, fast-paced environment. Come join a tight-knit, passionate team of people working to change the way business is done in the cloud.

Blink UX

Born out of the passion to make things easier to use, Blink UX was built on the foundation of science and design and the idea that all things can be intuitive if they are designed with a deep understanding of human behavior.

Cisco Systems

Changing the Way We Work, Live, Play, and Learn. Cisco is the worldwide leader in IT that helps companies seize the opportunities of tomorrow by proving that amazing things can happen when you connect the previously unconnected. At Cisco, customers come first and an integral part of our DNA is creating long-lasting customer partnerships and working with them to identify their needs and provide solutions that support their success. The concept of solutions being driven to address specific customer challenges has been with Cisco since its inception. Husband and wife Len Bosack and Sandy Lerner, both working for Stanford University, wanted to email each other from their respective offices located in different buildings but were unable to due to

technological shortcomings. A technology had to be invented to deal with disparate local area protocols; and as a result of solving their challenge — the multi-protocol router was born.

Concur

Concur imagines the way the world should work, offering cloud-based services that make it simple to manage travel and expenses. By connecting data, applications and people, Concur delivers an effortless experience and total transparency into spending wherever and whenever it happens, so businesses can focus on what matters most.

Costco

We are a membership warehouse club, dedicated to bringing our members the best possible prices on quality brand-name merchandise. With hundreds of locations worldwide, Costco provides a wide selection of merchandise, plus the convenience of specialty departments and exclusive member services, all designed to make your shopping experience a pleasurable one. Our operating philosophy has been simple. Keep costs down and pass the savings on to our members. Our large membership base and tremendous buying power, combined with our never-ending quest for efficiency, result in the best possible prices for our members. Since assuming the Costco name in 1997, the company has grown worldwide with total sales in recent fiscal years exceeding \$64 billion.

Deloitte*

Deloitte is one of the leading professional services organizations in the United States specializing in audit, tax, consulting, and financial advisory services with clients in more than 20 industries. We provide powerful business solutions to some of the world's most well-known and respected companies, including more than 75 percent

of the Fortune 100. At Deloitte, you can have a rewarding career on every level. In addition to challenging and meaningful work, you'll have the chance to give back to your community, participate in a range of diversity and inclusion initiatives, and get the support, coaching, and training it takes to advance your career. Our commitment to individual choice lets you customize everything from your career path to your educational opportunities to your benefits. And our culture of innovation means your ideas on how to improve our business and your clients' will be heard.

Visit www.deloitte.com/us/careers to learn more. For 2017 internship and full-time career opportunities, visit our booth at the fair.

Earth Economics

Earth Economics is an independent, non-partisan non-profit dedicated to researching and applying the economic solutions of tomorrow, today. Since 1998, Earth Economics has been providing robust, science-based, ecologically sound economic analysis, policy recommendations and tools to positively transform regional, national and international economics, and asset accounting systems. Working with leading ecologists, economists and modelers, we serve a large circle of non-profits, government agencies, policy makers, businesses, and multi-lateral organizations with research, reports, presentations, workshops and investigations. Our goal is to help communities shift away from the failed economic policies of the past, towards an approach that is both economically viable and environmentally sustainable. Everything we do can be measured in millions of dollars of investment shifted towards sustainability and by physical changes on the landscape.

eBay

eBay is changing the way people connect and shop around the world. When you

work for eBay, you become a part of a global company. Our interns and new hires are revolutionizing commerce by building apps, creating new platforms, and solving complex problems at a massive scale. What you work on here impacts the lives of millions every day. We are hiring in our offices in Seattle, Portland, San Jose, San Francisco, and New York City. We focus on empowering our sellers, not competing with them. We are building stronger connections between buyers and sellers with product experiences that are fast, mobile, and secure. We are transforming the individual selling experience to help you turn the things you no longer need into cash you can use. We've been doing this for 20 years. And we're just as passionate about it today as when we founded the company in 1995.

Echo Services, Inc.

Our mission is to save clients' time and resources by providing the information needed to make strategic decisions. To deliver this and more, we hire smart and creative people with a passion for continued learning.

Ernst & Young

EY is a global leader in assurance, tax, transaction and advisory services. The insights and quality services we deliver help build trust and confidence in the capital markets and in economies the world over. We develop outstanding leaders who team to deliver on our promises to all of our stakeholders. In so doing, we play a critical role in building a better working world for our people, for our clients and for our communities. Our culture has been recognized by the leading organizations in the Americas. Ernst & Young LLP has been ranked #1 in accounting on the US Universum Undergrad Overall IDEAL™ Employer Survey for eight consecutive years. In addition, Ernst & Young LLP has appeared on FORTUNE magazine's "100 Best Companies to Work For" list for 17 consecutive years.

Expeditors International of Washington, Inc.

Expeditors is a Fortune 500 company employing 13,900+ trained professionals in a worldwide network of 250+ locations with our corporate headquarters in downtown Seattle. Expeditors facilitates the sophisticated requirements of international trade through customized solutions and seamless, integrated information systems developed in-house by our growing department of IS professionals. We encourage our employees to learn, to take risks, and to advance their career. Our company slogan, “You’d be surprised how far we’ll go for you” is not mere hype; it is our commitment to surpass our customers’ expectations. At the heart of Expeditors you will find professionalism, leadership, and a friendly environment, all of which foster an innovative, customer-based approach to logistics.

ExtraHop Networks

Big Data, the cloud, elastic computing, SaaS, AWS, BYOD, HPC, SDN - we do it all. The solutions we build at ExtraHop are transforming the IT industry. From retail websites and point-of-sale systems to financial services and the healthcare industry, ExtraHop helps modern businesses handle the growing demands on their applications and infrastructures. Founded by engineers, ExtraHop is a technology startup located in downtown Seattle that delivers elegant solutions for the IT industry’s most challenging problems. The ExtraHop system is an application-aware wire-data processing technology that keeps network applications running at light speed. We’re looking for the right people to join us as we design and build the most cutting-edge products in operational intelligence. We’re hiring interns who want to solve problems and have the skills and attention to detail to back up their ideas. We move quickly and have a passion for building elegant, scalable solutions.

IBM Design

IBM has recently embarked on a major transformational journey. IBM Design needs talented and motivated software designers and front-end developers to drive an era of design-led innovation at the largest technology company in the world. You will conceive, articulate, and lead the future of IBM’s entire portfolio.

King County Library System

King County Library System (KCLS) provides services to residents of King County (WA) through 49 libraries, online services, and mobile services. The mission of the KCLS is to provide free, open, and equal access to ideas and information to all members of the community.

Kitsap Regional Library

Kitsap Regional Library serves Kitsap County’s 258,000 residents through nine community library locations, online access to library materials and services, a traveling bookmobile, and outreach services for the homebound and youth. The Library has more than 400,000 physical items in its collection, bolstered by online access to downloadable e-books, audiobooks and music. The Library also provides free access to dozens of online research tools.

LabKey Software *

Our team partners directly with bio-medical researchers working to prevent and treat a wide range of diseases (HIV, cancer, diabetes, auto-immune diseases, asthma, allergies, and others) to develop solutions to their data management and analytical challenges. We release the core of our software as open source, accelerating research in labs and networks throughout the world. We are serious about developing high-quality software, delivering innovative solutions, and contributing to the research community, but we’re just as committed to maintaining an enjoyable, collaborative and flexible work environment. Want to get

your career started by helping scientists attack some of the most challenging problems in the world? LabKey is looking for interns in Program Management and Software Development to join our team of exceptional scientists and engineers.

Lake Partners Strategy Consultants*

Lake Partners was founded in 1997 with the idea that there is a better way to approach consulting – better for our clients and better for our consultants. We offer high-end strategy consulting without the high-end attitude. Simply put, we solve problems — quickly, efficiently and accurately, thanks to a research process built on strong fundamentals: asking targeted questions, evaluating answers with sound analytics, and utilizing exceptional communication skills. Based in one of the most beautiful and innovative cities in the U.S., Lake Partners is a people-focused boutique consultancy that believes hard work and quality of life need not be inversely related. We are searching for smart, curious full-time Analysts who love diving into complex problems headfirst. Our Analysts work directly with accomplished clients, from institutional investors to Fortune 500 companies, fine-tuning their research and problem-solving skills with the support of colleagues and managers just down the hall

Liberty Mutual

At Liberty Mutual Insurance, doing the right thing is essential. That's why we offer a diverse range of internships and career opportunities that complement your academics, and provide experience through immediate responsibility and stimulating work. You've made a significant investment in your education, and we want to do the same for your career. As a Fortune 100 company, we have the training and resources for you to expand your skills and creativity to drive our business forward. A diversified global insurer, LMI employs over 50,000 people in more than 900 offices worldwide.

Microsoft*

No matter what your passion is, you'll find it here. Imagine the opportunities you'll have in a company with more than 100,000 employees in more than 100 countries, working on hundreds of products — spanning games, phones, developer tools, business solutions and operating systems. We work hard, but we value work/life balance, and each of us defines what that means to us. So why not explore what we do, where we do it, and what life is really like at Microsoft? You just might be surprised.

NCC Group

NCC Group is looking for security-focused engineers and researchers to join our application security consulting and research practice. Job duties will include penetration testing, security analysis, and cutting-edge research into current technologies and attacks. You will spend most of your day thinking about security systems and how you can break them. This is a very creative job that gives individuals a lot of freedom to be clever while learning new technologies at a very fast pace. Typical engagements will pair you with another experienced security consultant, and you will learn from each other along the way. Engagements are usually 2-4 weeks long. During your normal customer work, you will be exposed to a wide variety of products and technology stacks. You will have enormous impact in making the software people use safer. You will also be a security researcher, with dedicated research time.

Premera Blue Cross

At Premera we serve 1.9 million people — from individuals and families to Fortune 100 employer groups. Our mission is to provide peace of mind to our customers about their healthcare. As one of the largest health plans in the Pacific Northwest, we provide comprehensive, tailored

services to customers in Washington and Alaska that include innovative programs focused on wellness and prevention, disease management and patient safety — delivered through health, life, vision, dental, stop-loss, disability, workforce wellness, and other related products and services. We are committed to controlling rising medical costs while ensuring access to quality care for our members.

Robert Half

Founded in 1948, Robert Half pioneered the concept of professional staffing services. Robert Half once again was named to Fortune magazine's list of "Most Admired Companies," ranking #1 in our industry (March 1, 2015). The company is traded on the New York Stock Exchange (symbol: RHI) and is a member of the S&P 500 index. For 2014, Robert Half reported revenues of \$4.7 billion versus \$7 million in 1986. Robert Half, an Equal Opportunity Employer, currently has staffing and consulting operations in more than 400 locations.

Sno-Isle Libraries *

Sno-Isle Libraries serves 697,000 residents through 21 community libraries, online services, bookmobile stops and the Service Center throughout Snohomish and Island counties. Our mission is to be a community doorway to reading, resources, and lifelong learning, and a center for people, ideas, and culture.

Socrata

Socrata is the leading developer and provider of Open Data Services, a category of cloud-based Web 2.0 solutions that enable federal, state, and local governments to dramatically improve the reach, usability and social utility of their public information assets. Socrata provides the Socrata Social Data Platform, a turnkey information delivery platform that reduces life cycle management costs

for government customers; the cloud-based Socrata Open Data Platform that transforms information assets — tabular data, geospatial data, unstructured content, and real-time data from government transactional systems; and the Socrata API Foundry, an API modeling and management environment for mass-producing open standards-based developer-ready APIs. The company was founded in 2007 and is based in the Pioneer Square district of Seattle, Washington. Socrata's small and enthusiastic team is expanding to match its quickly growing client base.

Special Collections, University of Washington Libraries

Special Collections brings together the University of Washington Libraries' rarest and unique resources. From papyrus to born-digital, our holdings span history and the globe, and offer boundless opportunities for exploration and discovery. Students, faculty, and visitors are invited to examine manuscripts, printed works, artists' books, photographs, maps, and other materials in the protected environment of the Special Collections reading room. Our digital collections are available on the web.

Starbucks Corporate

Since 1971, Starbucks Coffee Company has been committed to ethically sourcing and roasting the highest quality Arabica coffee in the world. Today, with stores around the globe, the company is the premier roaster and retailer of specialty coffee in the world. Through our unwavering commitment to excellence and our guiding principles, we bring the unique Starbucks Experience to life for every customer through every cup. To share in the experience, please visit us in our stores or online at www.starbucks.com.

Symetra

Symetra is a dynamic and growing financial services company with 50 years of experience and customers nationwide. In our daily work delivering retirement, employee benefits, and life insurance products, we're guided by the principles of value, transparency and sustainability. That means we provide products and services people need at a competitive price, we communicate clearly and honestly so people understand what they're getting, and we build products that stand the test of time. We work hard and do what's right for our customers, communities and employees. Join our team and share in our success as we work toward becoming the next national player in our industry.

T-Mobile

As America's Un-carrier, T-Mobile US, Inc. (NYSE: "TMUS") is redefining the way consumers and businesses buy wireless services through leading product and service innovation. The company's advanced nationwide 4G and 4G LTE network delivers outstanding wireless experiences for customers who are unwilling to compromise on quality and value. Based in Bellevue, Wash., T-Mobile US operates its flagship brands, T-Mobile and MetroPCS. It currently serves approximately 58 million wireless subscribers and provides products and services through 70,000 points of distribution.

Tableau Software

We help people see and understand data. Seven words that drive everything we do. And they've never been more important. In 2020 the world will generate 50 times the amount of data as in 2011. And 75 times the number of information sources (IDC, 2011). Within these data are huge, unparalleled opportunities for human advancement. But to turn opportunities into reality, people need the power of data at their fingertips.

Tableau is building software to deliver exactly that. Our products are transforming the way people use data to solve problems. We make analyzing data fast and easy, beautiful and useful. It's software for anyone and everyone. We are Tableau Software. The roles that we are recruiting for are User Experience Intern, Research Intern, Program Manager Intern, Software Engineer Intern, Software Engineer, and Product Testing Intern.

The Museum of Flight

The Museum of Flight's Harl V. Brackin Library is a popular and useful resource for researchers, aviation enthusiasts, students, model-makers, and authors. Containing 29,000 books, 60,000 magazines, and 14,000 manuals, it is one of the largest, most complete, and publicly accessible aviation and space libraries in the country. The Museum of Flight archival collection is composed of photographs, negatives, paper material, and magnetic media that document aviation history. The Museum's archival collection includes primary source materials such as personal files, clippings, documentation, maps and charts, airline schedules and ephemera, photographs, and drawings. The collection also includes oral interviews, film, and art. We will be recruiting for a variety of processing and cataloging internships.

Washington Library Association

The Washington Library Association (WLA) is a resource for libraries and the people who make them great! WLA is a vibrant and effective advocate for libraries, library professionals and library allies. It's also a community where its members learn, grow professionally, develop strong relationships & have fun. Anyone can be a member. You don't have to work in a library, serve on a library board, or be a member of a Friends of the Library organization. You only need to be interested in libraries and in the goals of the Association. Students can join WLA directly for just \$20 a year, which

entitles you to all of the regular benefits of membership including registration discounts for our conferences and seminars and membership in all of WLA's Interest Groups.

Washington Talking Book & Braille Library

The Washington Talking Book & Braille Library (WTBBL) provides a free public library service that includes easy access to the informational and recreational reading materials needed by individuals in the State of Washington who are unable to read standard print material.

West Monroe Partners*

West Monroe Partners is a North American business and technology consulting firm focused on guiding organizations through projects that fundamentally transform their business. With the experience to create the most ambitious visions as well as the skills to implement the smallest details of our clients' most critical projects, West Monroe Partners is a proven provider of growth and

efficiency to large enterprises, as well as more nimble middle-market organizations. Our more than 500 consulting professionals drive better business results by harnessing our collective experience across a range of industries, serving clients out of offices across the U.S. and Canada.

Workday

Workday is a fast growing software-as-a-service (SaaS) company in the space of enterprise business applications. Founded by PeopleSoft veterans Dave Duffield and Aneel Bhusri, Workday delivers Human Capital Management, Payroll, Financial Management and Worker Spend Management solutions for midsize and Fortune 500 companies. Our solutions combine the lower cost of ownership of SaaS with a modern approach to applications. We have top-notch development talent, experienced management, cool technology, and explosively growing customer base. All this and more make it a really great place to work!
