

Career Opportunities

Consulting

Accelerate your career by being different. Whether helping organizations improve their cybersecurity or overall strategy and operations, professionals at Moss Adams quickly gain a wide range of experience and deep industry knowledge while empowering companies to anticipate and overcome complex challenges.

CHOOSE YOUR PATH

Cybersecurity

Majors: information systems

Use your unique technical skillset to help small to midsize companies as well as not-for-profits and government organizations assess and improve their IT environment. You'll provide solutions for: security assessments, penetration testing, HITRUST and HIPAA compliance as well as systems and software assessments and development and integration.

Valuations

Majors: finance, economics

Provide insightful expertise on valuations for a range of tax, transaction, and compliance purposes for midsize businesses across multiple industries, including health care, automotive, and real estate. You'll provide solutions for: employee stock ownership plans, estate and gift planning, and fair value measurement.

Strategy & Operations

Majors: master of public administration, master of public policy

Boost small to midsize organizations' performance by helping them to improve their efficiency and effectiveness while elevating employee engagement. You'll provide solutions for: strategic business planning, performance audits, best practices, competitive benchmarking, and federal agency and contractor services.

Career Opportunities in Consulting

Assessment & Planning

Majors: data analytics, master of business administration

Use your expertise to help mid-sized companies across multiple industries increase the efficiency and effectiveness of their technology environment as well as their systems, infrastructure, staffing, and organizational practices. You'll provide solutions for: IT assessments, IT business systems and services, corporate performance management, and business intelligence.

Development & Integration

Majors: information management, computer science

Help mid-sized companies and organizations implement and manage new applications and systems designed specifically to meet their unique needs. You'll provide solutions for: third-party software selection and implementation as well as custom software development.

Wealth Management

Majors: financial planning, finance

Guide the investment decisions of businesses and individuals across multiple industries as well as foundations and other funds to help them grow, manage, and protect their hard-earned wealth. You'll provide solutions for: personal financial planning, investment management and consulting, and insurance.
