

Helping SightLife manage data more effectively to eliminate corneal blindness

*All superheroes must confront their enemies.*

*Karthik's enemy was corneal blindness.*

*SightLife helped Karthik overcome his fearsome foe by receiving corneal transplants in both eyes.*

*Improve SightLife's Data*

*Increase impact on more lives*

### Barriers:

-  Manual Entry
-  Poor Data Integrity
-  Limited Analytics

## How? Database Management Process

1

Dynamic forms allow for standardized and user-friendly data entry

2

Relational Database ensures normalized data storage

3

Powerful Visualizations are created through PowerBI
