

# COLLABORATOR COMMENTS

A streamlined system for managing collaborator comments

## Global Burden of Disease (GBD)

GBD is a study led by IHME to quantify health loss from hundreds of diseases, injuries, and risk factors, by country and over time.

A network of over 3,000 collaborators research, analyze, and publish papers on health outcomes.

150

Research Papers  
published per year

4,000

Comments per  
paper

2

People to sort  
through them

Manually organizing  
comments takes

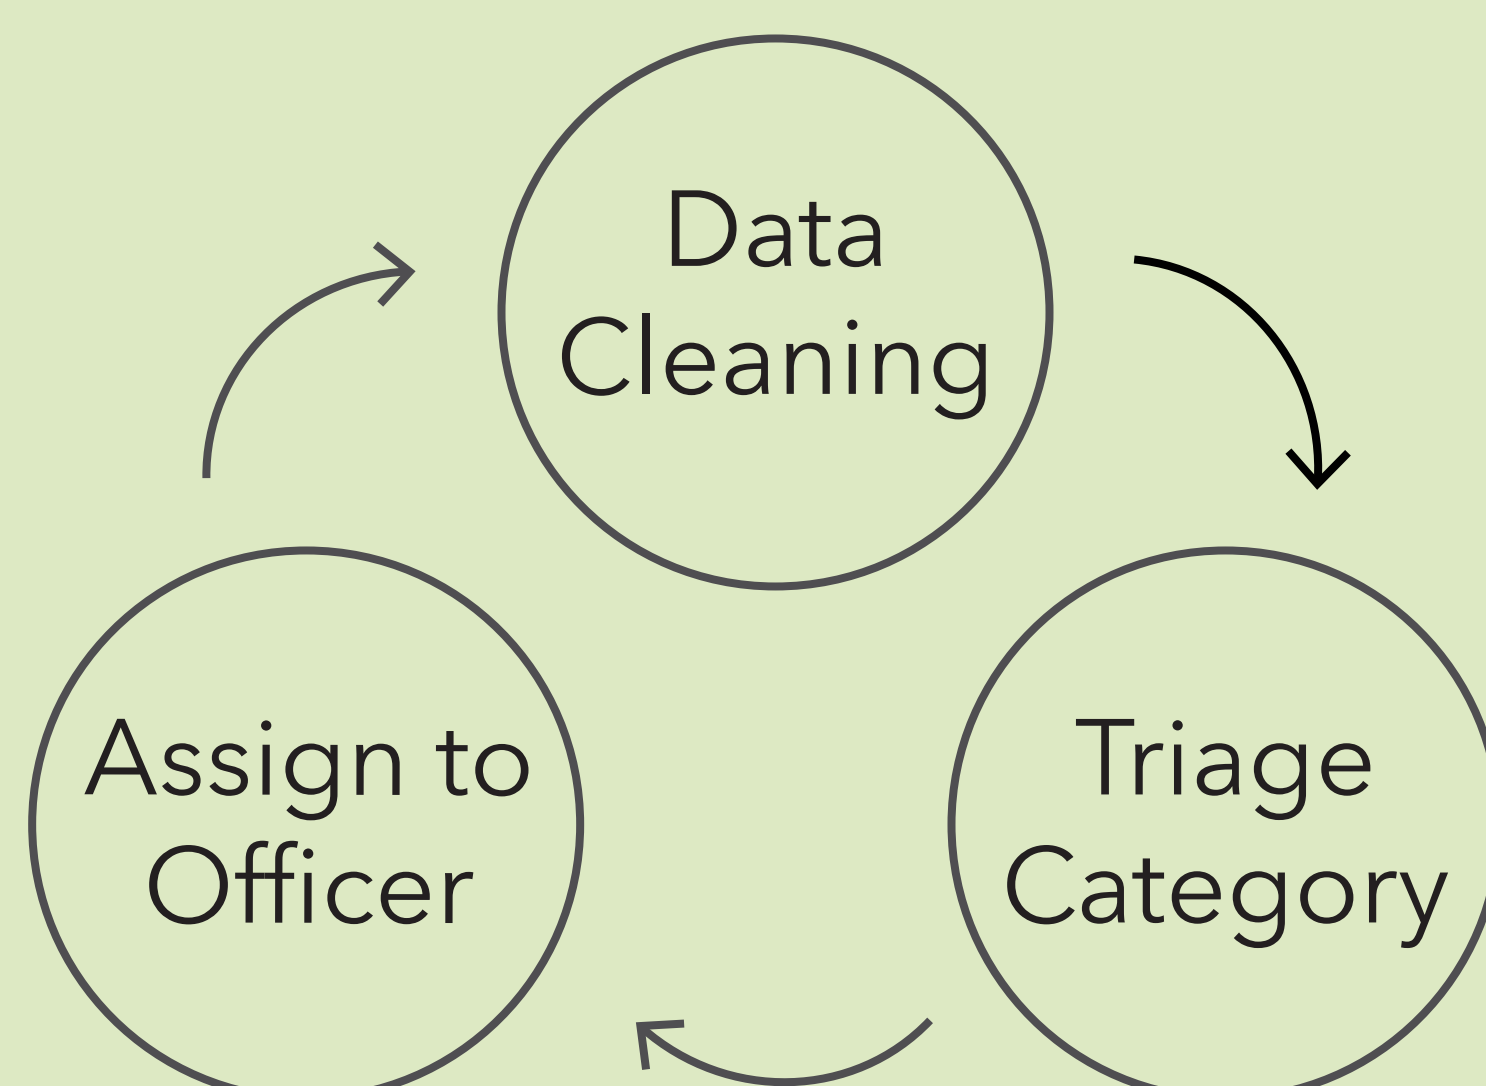

3 WEEKS

Our solution takes

30 SECONDS
