## ABOUT THE COLLECTION

Captain David Wilsey, M.D., was born in Wisconsin in 1914. After receiving his medical degree, he joined the military as an Army physician during World War II. At 30 years-old, he was one of 27 doctors who helped liberate Dachau concentration camp in late April 1945 and spent the next month giving medical care to former prisoners. These 280+ letters are preserved online for the first time, so that future generations will never forget.
