Plentiful

our jobs work for you

Problem

Local **companies** have a **difficult** time **finding workers** for one-time jobs. This lack of ability to adequatley **distribute** and **sign-up** jobs has resulted in **loss of profit** for both **clients and contractors**.
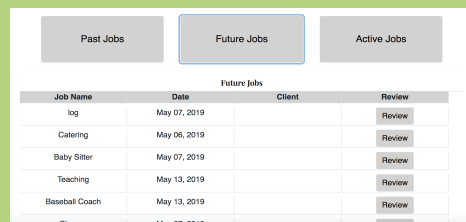

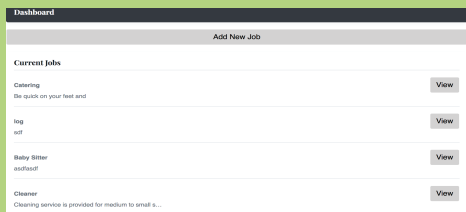

Opportunity

During Q4 of 2017 & Q1 of 2018, clients with 20-30 **"last minute requests"** generated roughly **$250,000 in revenue** during 6 months. With **no software solution,** client relations were **requested to cease** due to the increasingly **high liability** and **lack of infrastructural support**.

Solution

A software platform for both clients and contractors

Use Plentiful to find or distribute part-time work.

Add job postings from the client portal.

Sign up and view jobs from the contractor portal.
