UNIQUE COUNTRIES FOR PROJECT ORIGIN

2.3%
PROJECTS FUNDED

The Grand Challenges Explorations (GCE) team through the Gates Foundation needs to know whether their "blind review" process of grants is working to ensure all types of organizations are being considered and brought into the loop. There should also be no biases altering decisions throughout.

Is the current "blind review" process effective in generating new people or groups that the team hasn't come across before?

33
GROUPS WITH MULTIPLE FUNDED PROJECTS

1451
GROUPS WITH ONE FUNDED PROJECT
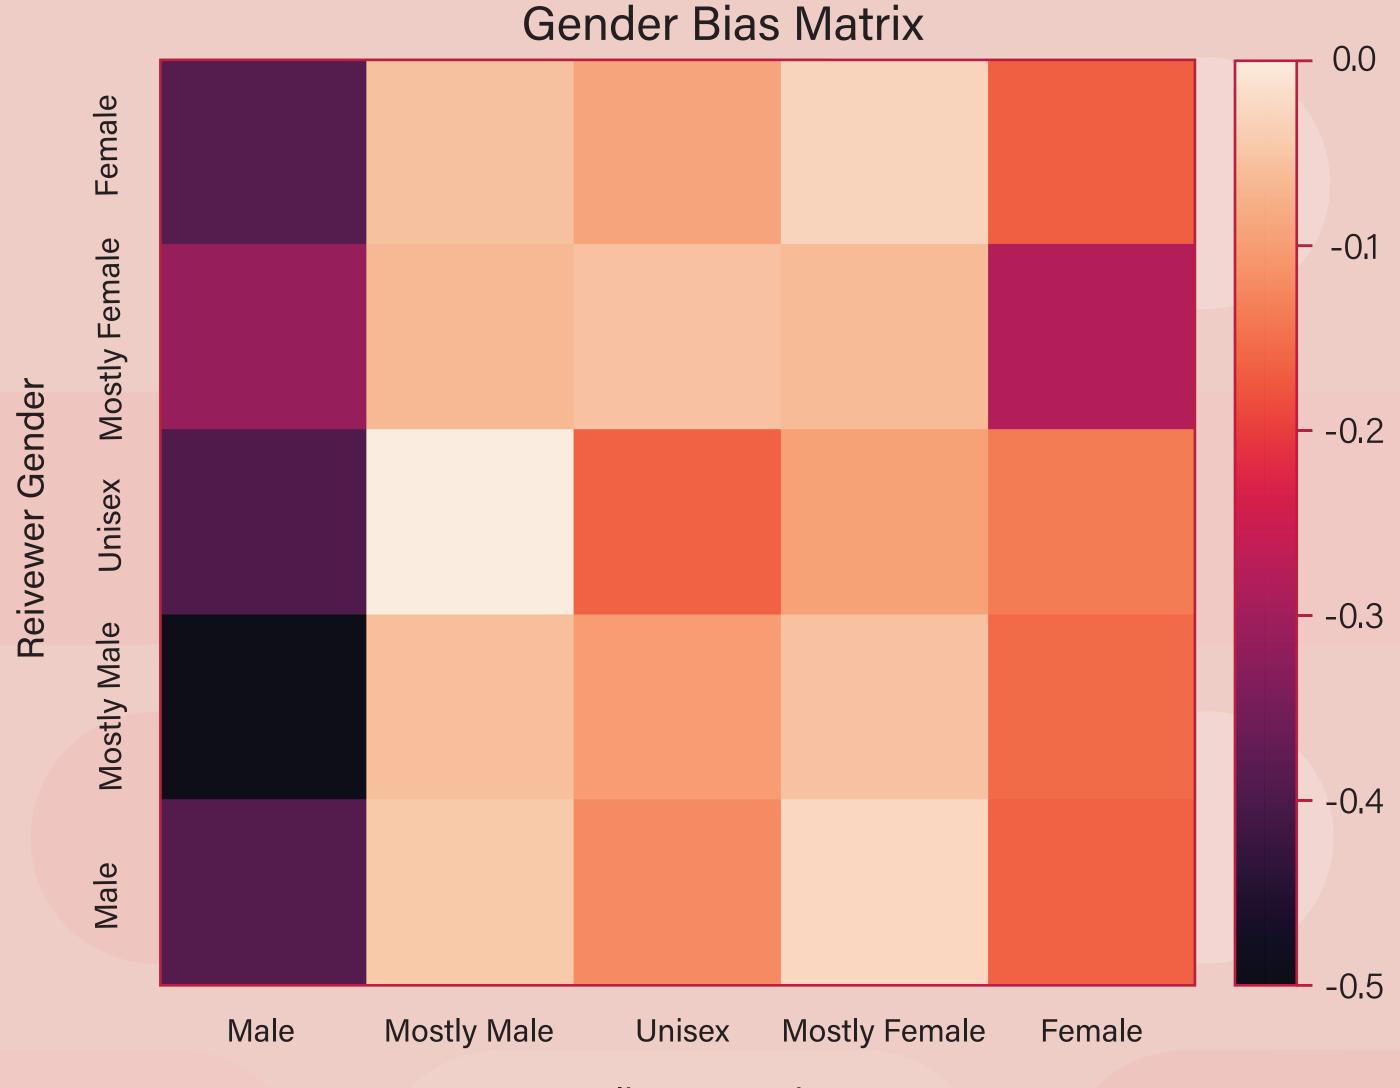

8%
GRANTEES FIRST INTRODUCED THROUGH GCE

Is this current methodology for choosing grants effective in not allowing bias to alter decisions?

Gender Bias Matrix

Reivewer Gender: Female, Mostly Female, Unisex, Mostly Male, Male

Applicant Gender: Male, Mostly Male, Unisex, Mostly Female, Female

Scale: 0.0, -0.1, -0.2, -0.3, -0.4, -0.5
