

# OTHERWORLDLY MEDIA

BY ANNDEE HILTON & KAITLYN MORAN

## INFORMATION PROBLEM

- Otherworld Media created a radio play to encourage children to read and interact with books
- Public libraries would not pick it up and run the program without resources for parents and educators

## OUR SOLUTIONS

- Working with Judith to create an age appropriate methodology
- Used this to create an annotated resource list for educators, librarians, and parents
- Created a website containing all of this information that Judith can share with her board of directors and libraries

## FUTURE CAPSTONES

- Update resources in other Otherworld Media productions
- Create a child-safe web resource for accessing Otherworld materials
- Create resource lists for future Otherworld productions
