

"No one puts their children in a boat
unless the water is safer than the land"

PROBLEM

70.8 million
internally displaced people

37,000
people are forced to leave per day

1 person
is forcibly displaced every two seconds

The current atmosphere allows for **misinformation** about refugees to persist and denies them accurate representation and recognition, leading to prejudice and policies that continue to deny refugees.

1.4 million
refugees needs resettlement
right now

92,400
refugees resettled as of 2019

SOLUTION

A web-based, open-access, free data center that educates users on issues and policies concerning refugees while providing them with a **holistic** range of information!

FEATURES

CONTEXT

*Explore history.
Debunk myths.
Explain terminology.*

DATA VIS

*Display factual &
unbiased data.
Download data API.*

NARRATIVES

*Explore stories.
Hear the voices.*

TAKE ACTION

*Make a difference.
Reach out to the local
representatives.*
