

CodeBreakers Tools

Tools that enhance the experience of CodeBreakers' students when using it

Problem Statement

Students who choose to **learn programming** through non-traditional routes such as coding bootcamps face more **obstacles introduced by predominantly remote learning**.

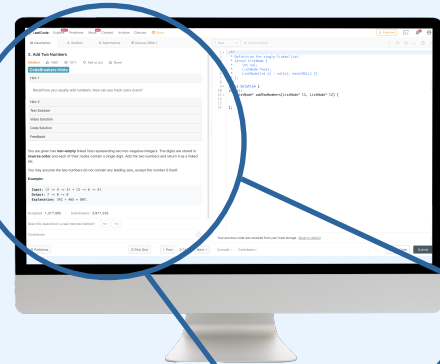

Solution

In order to achieve competent programming proficiency, CodeBreakers students require a reliable **resource for help with LeetCode problems** and **improved workflow for their learning experience**.

LeetCode Chrome Extension

A learning resource populated by coaches for students to efficiently complete assigned LeetCode problems

Provides hints and solutions to quickly reference

2. Add Two Numbers
