Problem Statement

Blurbs on the side of the art or the informational books make it hard for museum visitors to enjoy an interactive and smooth experience; cluttering their flow of information.

> **We want to make it easier for people to navigate through the bulks of information thus, creating an inclusive ecosystem for knowledge to be accessed, learned and shared effortlessly.**

Solution

An interactive app that enables visitors to **navigate**, **find**, **save** and **share** information about art showcased in the museum.

Here are some of the features:

- **Floor by floor map navigation**
- **Art Passport (Bookmark what you love)**
- **Share with friends!**
