

## A personalized collection plan to promote engagement with material and the library space.

### Shaping the Collection

#### Challenges:

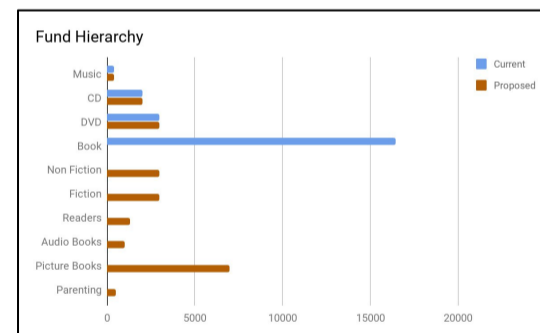

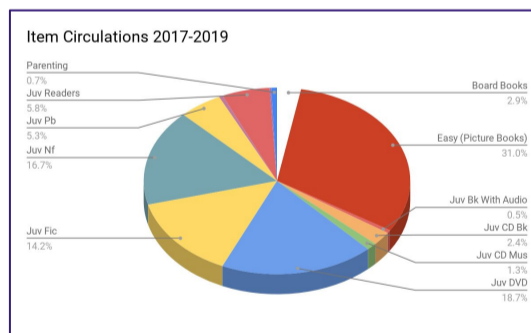

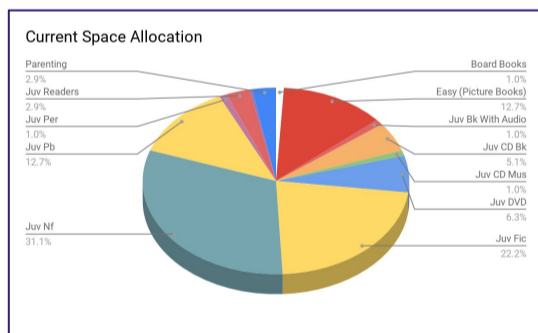

- Tight shelves make it difficult for patrons to find or browse material.
- The Library Director would like DVD's to be less prominent in children's area.

#### Opportunities:

- Appropriate weeding will provide opportunities to feature material.
- Redistributing space based on material circulations will better serve user interest.

### Detail Spending for Deliberate Growth

#### Challenges:

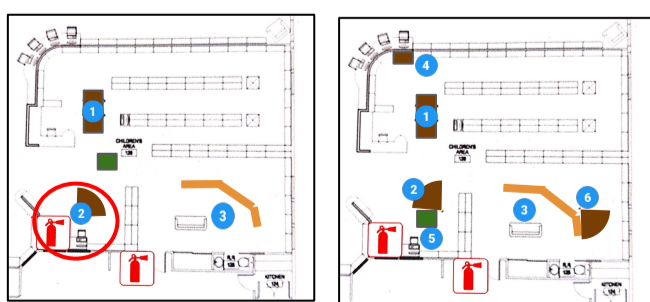

- Allocation of space for the material type doesn't match circulation usage.

#### Opportunities:

- More deliberate spending will allow the collection to grow toward library objectives.

### Space for People

■ Seating ■ Display Rack ■ Play Wall ■ Distinct Areas to Be

#### Challenges:

- Patrons feel the computer screens are distracting to non-users.

#### Opportunities:

- Using existing furniture, adjustments would allow more space for people, who will then be better able to self-select their library experience to avoid undesired distractions.
