

a.d.s. dashboard

data-driven funding made simple.

Informing the City of Seattle's funding decisions for Aging and Disability Services through data.

streamlined workflow

Create surveys, insert data, and evaluate results all in one in place eliminating the need for outsourced work.

integrated survey system

Integrated surveys eliminate discrepancies in data, reduces dependency on external survey programs, and hosts all your data in one place

live dashboard updates

Survey inputs immediately update dashboard visualizations and show trends in data to make quick and easy decisions for funding.
