

Helping King County residents survive though the Coronavirus pandemic

Coronavirus can be hard to navigate, especially for ESL communities

With an unclear list of symptoms

An ever-changing list of best practices

And an overload of information

CounterCOVID is a reliable tool for King County residents to get personalized and up-to-date information on the Coronavirus

County's 10 most common languages!

Counte	erCOVID		Risk Assessment	Timeline Ti	ips How to Help	Language
1	2	3	4		5	6
	Are you ex	periencing an	y of the follow	wing sympto	oms?	
		Fever above 100° F / 37.8° C				
		Dry cough				
		Fatigue /	extra tired			
		No appe	tite			
		Feeling o	f mucus in the l	ungs		

Detailed risk assessment tool

Fill out the quick quiz regarding the health and symptoms of you or a loved one

List of best practices

Get a personalized and up-to-date list of precautions to take and save the results as a PNG to share
