

Postcomet

Interact with your audience by allowing them to send text messages straight to your live stream.

Open your event to more participants by simulcasting on Youtube & letting all participants text in their questions.

1

Go live on YouTube

Start your stream live to Youtube, the world's most popular streaming service, to reach your customers quickly & easily.

2

Get custom number

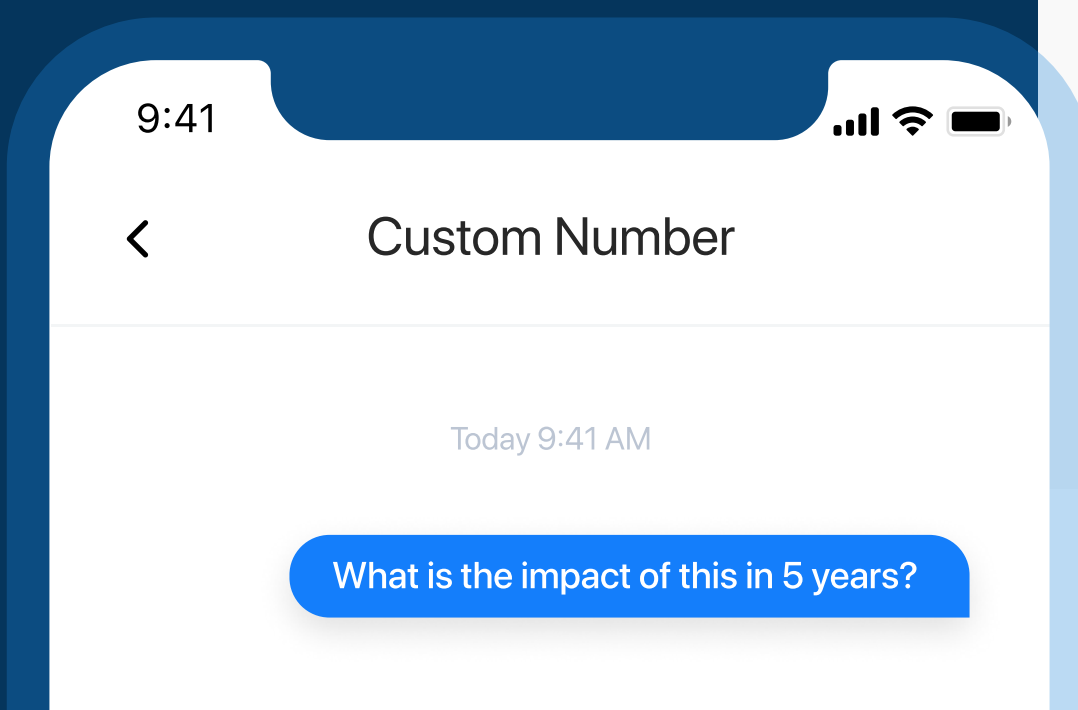

Each stream gets its own unique code so every text gets connected to the right event.

Custom Number

3

Text your questions to the stream

All participants, in-person, at a satellite viewing location, or online, can now interact with presenters all in the same way.

Live chat ▾

- Our event will be starting in 5 minutes...
- Can you clarify on this more?
- Can you use a weak bleach solution as a c...
- Importance of LAUGHTER
- Why are we seeing a rise in cases?
- What is the impact of this in 5 years?
- AFS
