

Story Bond

Everyone is a book filled with their own life stories.

Challenge

Everyday we meet and interact with many people but we seldomly develop a deep connection with them.

How might people and their acquaintances know more about each other so that they can form genuine friendships?

Outcome

Everyone has a story, instead of silence, we wish it can be the bridge to our heart.

We decided to build a place to share these stories.

StoryBond provides a place for you to express yourself in the form of story, and you can better understand others through the story exchange.

Impact

In this age of new media, the genuine story seems fade away.

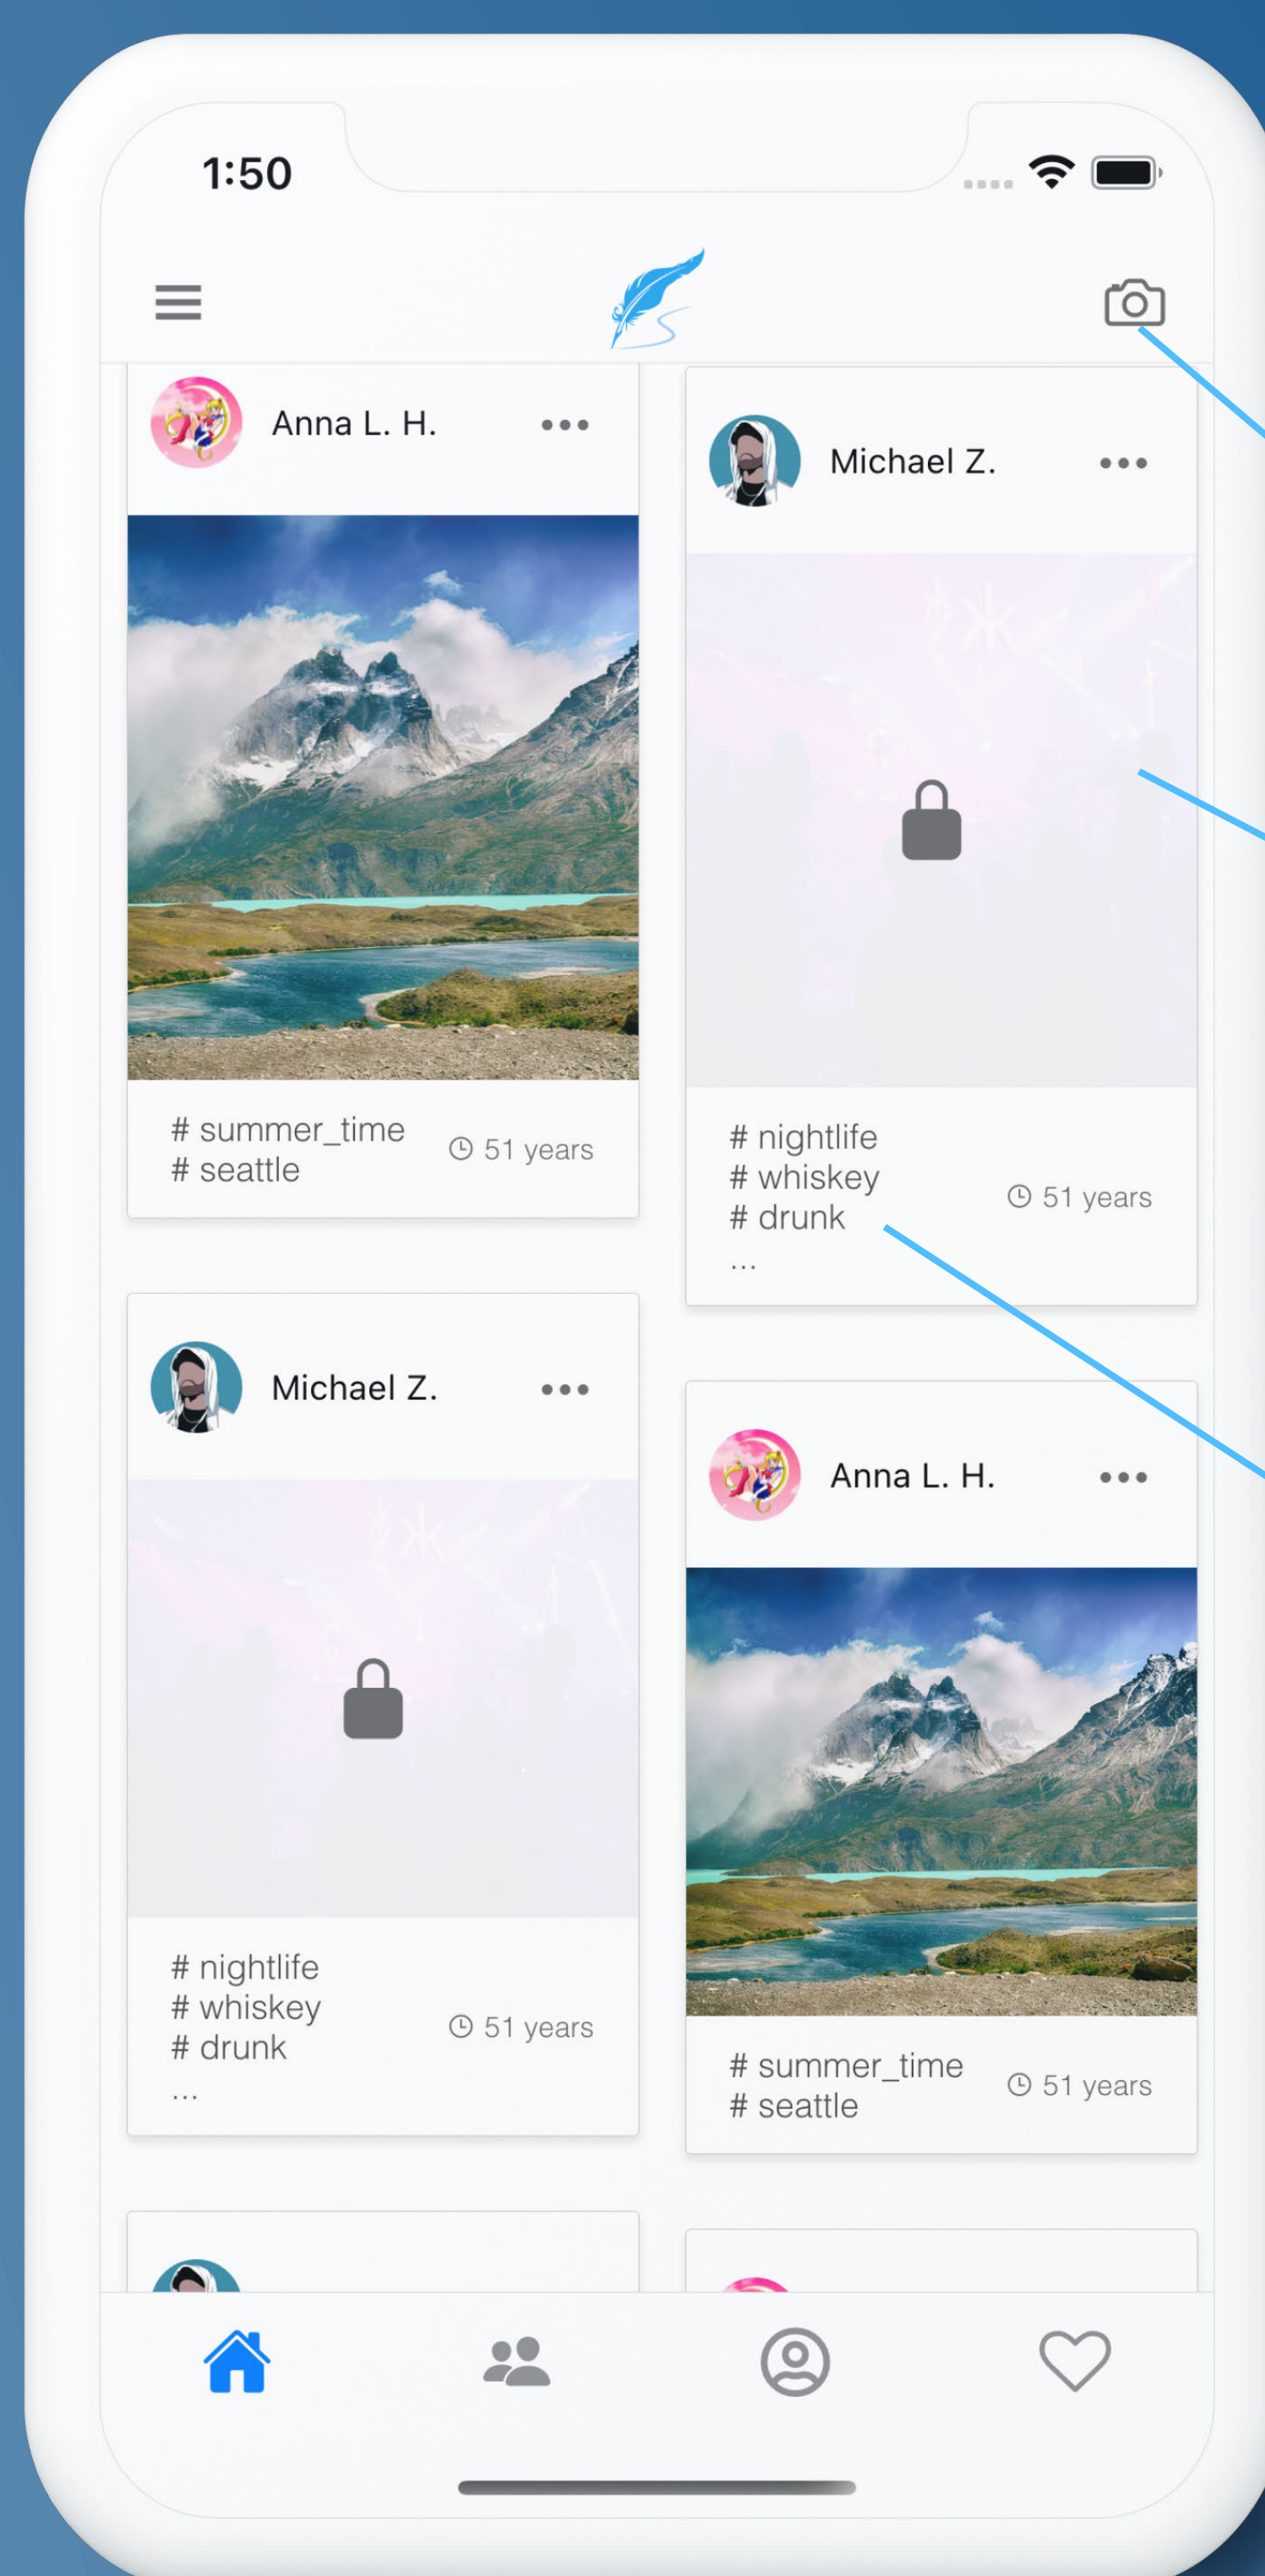

But these stories form bonding within each other and help us being understood.

And it has the power of turning an acquaintance to a genuine friend.

We hope you can find the genuine fun of knowing your family, friend, and even yourself
