

Food Bank Database

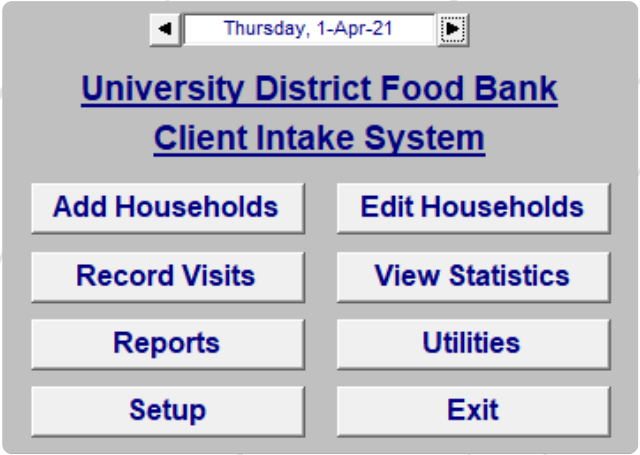

Opportunity

Old database was restricting the productivity and data accuracy for UDistrict Food Bank.

Process

Our research and design process led us to determine the major elements that needed to be included in the new database:

-  Internet storage for updating simultaneously from different users
-  Low tech threshold for accessibility to staff and supported by software updates
-  Collective records for better client management
-  Provide reliable data integrity and retention for stakeholders
-  Customization to accommodate reporting needs for all programs

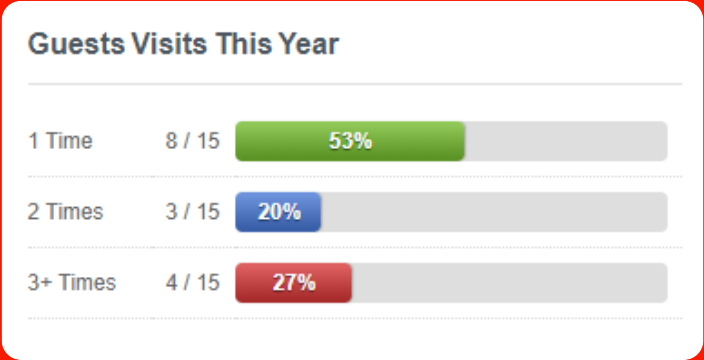

Solution

Our recommendation for a new intake system was Food Bank Manager which is simplistic for non technical users, customizable for data needs, and cost effective.

Data visualization of unduplicated and duplicated guests for the year. Critical for food bank reporting.

Guest detail list with custom fields.

First	Last	Address Lookup Hash	Apartment/Suite	City	Zip/Postal Code	Secondary Guest	Total Individuals
Sabriel	Abhorsen	3 ANCELSTIERRE ST	Apt 4	Seattle	98105		4
Feyre	Archeron	123 PRYTHIAN ST		Seattle	98101	Nesta	3
Linus	Baker	666 CERULEAN IS		Seattle	98103	Arthur Parnassus, Zoe Chapelwhite	9
Bill	Bryson	2012 HOME ST	apt 30	Seattle	98105		2
Herry	Carter	1491 WESTERN RD		Seattle	98103	Thomas Newman	2

Program visit report by month with household, age and total individuals summary.

# of HH Visits	Age: 0 to 2	Age: 3 to 18	Age: 19 to 54	Age: 55+	Total Individuals	Monthly Visit Date
6	1	1	6	0	11	2021-03
13	0	3	17	2	23	2021-04
4	1	8	9	2	20	2021-05
