

# THE EUPHORIGEN INVESTIGATION ESCAPE ROOM

Sharing false information with a massive audience is devastating, yet effortless.

How can we build awareness and resilience towards misinformation in a fun and rewarding manner?

## WE BUILT A GAME.

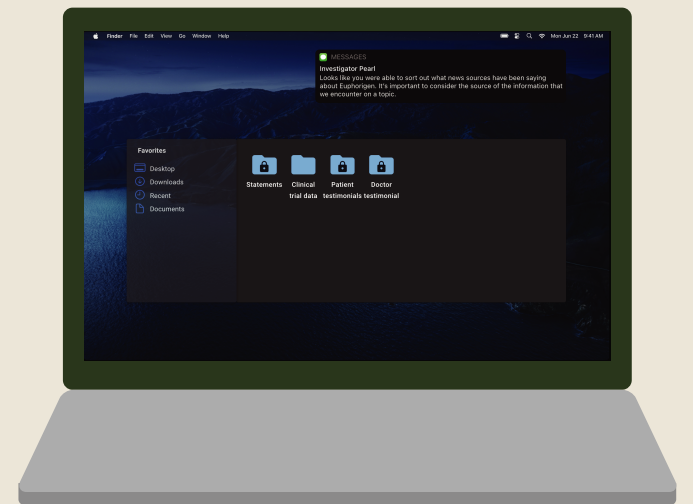

## PUZZLES

The game consists of 5 puzzles. Each covers a topic surrounding the detection and prevention of misinformation.

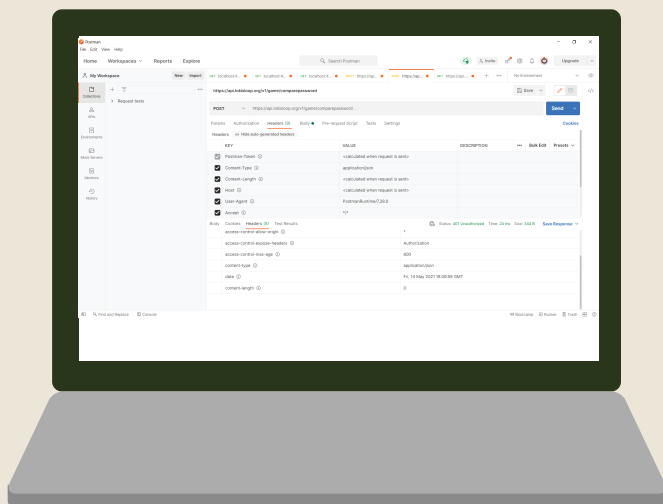

## STORYLINE

Players must navigate through false information to discover the truth about a fictional drug called Euphorigen. A shocking reveal reminds players that we are all vulnerable to misinformation.

## API

We built an API that handles site administration, player authorization and authentication, and user metric tracking.
