

LEAF

THE GENTLE LETTING GO

THINK GREEN, LIVE GREEN

Leaf

PROBLEM BACKGROUND

Transportation carbon emission caused **28%** portion of greenhouse gas emissions in the U.S. On the other hand, the United States is the global leader in food waste, with nearly **40 million tons** of food every year. Our earth is at a critical stage where everyone of us should contribute to protect our homeland.

OUR SOLUTION

Our vision is to create a solution to help young adults in the U.S. to aware their carbon footprint and start to have the motivation to take daily actions to reduce carbon emission.

CALCULATE

Carbon emission calculator can help you calculate everyday carbon emission in the most efficient way.

TRACK

Our user insight dashboard can help you **track** your carbon footprint and progress

PLANT

Collect points by doing off-set activities and use points to **plant a real tree** in life
