

CYCLING CASPER

Bike Lending Feasibility at the Natrona County Library

CONRRADO SALDIVAR, MLIS 2021

THE PROBLEM

Casper has an extensive trails system, yet no existing bike lending program exists. Can the Library help facilitate this?

BUDGET \$2.3 M

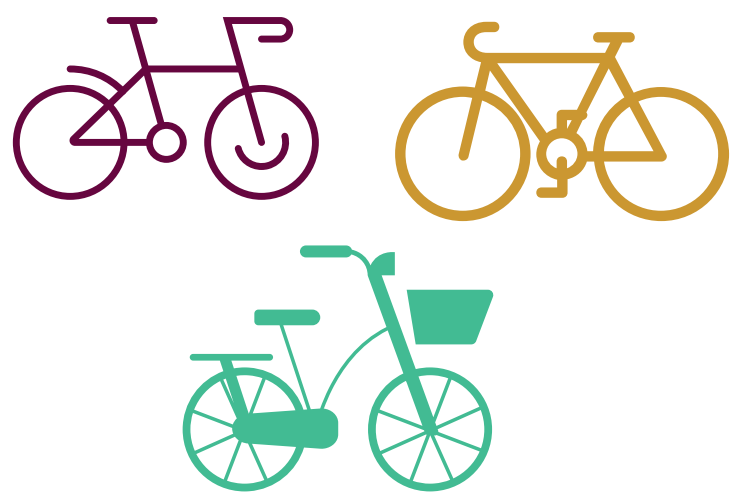

The Library's primary budget covers personnel and facilities. Collections, programs, and services depend on outside resources.

SOLUTIONS

The Library will be presented with options to either purchase a "fleet" of bicycles using outside funds or pursue options to receive donated bicycles through existing community programs. Onsite or offsite storage options will also be suggested to the Library.

PURCHASES V. DONATIONS

ADDITIONAL INFORMATION

The Library will also receive a programming guide and a list of community partners to increase its reach in the community if a model is implemented. Ultimately, the Library's mission statement will drive implementation.
