ADIOS COVID

## Helping all Latinos in WA get the COVID-19 Vaccine

The Latino and Hispanic community are **struggling to properly access vaccine information** and providers can have **difficulty setting up appointments** for them.

Research

Understanding the **lack of accessibility** from current online resources and how they could be improved.

Design

Ensuring an **inlusive user experience** across the website and vaccine scheduling system.

Testing

Working with Community-Based Organizers to **evaluate and refine** the appointment scheduling process.

Solution

Work toward **improving** the application's interface without causing concern over private information.
