Problems and Opportunities

- Creation of Portuguese Language and Luso- Brazilian Studies minor
- Lack of bibliographic resources in Portuguese
- Kenneth S. and Faye G. Allen Award - UW Libraries
- Collaborative Collection Development Program with University of Oregon

Objectives

- Build the Portuguese Studies collections
- Update the Portuguese collections profile
- Create approval plans
- Review and update LibGuides
- Plan and co-teach an information literacy session

Impact

Students will access 300 publications in the 2021/2022 academic year

The LibGuides for Portuguese Studies and in Latin American Studies were updated, and will connect students to reliable information in online repositories in Lusophone countries.

The librarian will use the lesson plan for information literacy sessions and the approval plan for future publication purchases.
