## Current challenges

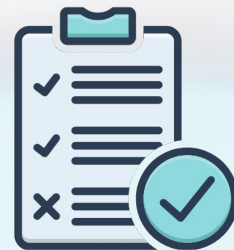

As social media use increases, the dependence on online sources for skincare advice often results in information overload, trend-driven purchases, and reliance on influencers.

## Our solution

An **analysis tool** utilizing **computer vision** to help skincare beginners gain a deeper understanding of their **skin concerns** and enhance their overall knowledge of **skincare ingredients**.

Upload a clear selfie of your face

Answer skin survey

Computer vision analyzes

Discover ingredients targeting your skin concern

"Dewy is intended as a supportive resource, not a substitute for professional diagnosis or treatment. We hope to provide skincare beginners with knowledge, with the hope of enhancing their skincare experience."
