

Allergy App

Your solution to grocery shopping with food allergies.

Problem:

For people with food allergies, grocery shopping is an **tedious** task with potentially deadly consequences. It takes a great deal of care to avoid harmful ingredients.

Product labels can often be confusing or misleading, forcing shoppers to read lists of ingredients.

Solution:

We created Allergy App, a mobile Android application designed to **enhance the grocery shopping experience**.

Users can select their food allergies, and the app determines if a scanned product contains harmful ingredients.

Features:

- Includes 6 of the most common food allergies
- Highlights potentially harmful ingredients
- Extensive database of over 150,000 products

Evaluation:

We performed a series of user tests on 10 participants. Our results indicate Allergy App is:

- Intuitive and easy to use
- A **trustworthy** tool while grocery shopping
- Valuable to users with food allergies
