

Market

There are 2 million waiters working in the service industry in America. Approximately 500,000 of these workers rely on tip pooling or tip out systems to compensate/distribute tips to their support staff.

Waiters who tip out: **~500,000** Total sales/year: **~\$45,000,000**

Current Process for Waiters

Unpaid hours spend/year: **152 hours**

Solution

A web application that works across all devices to manage tip-out calculations and store data long term. Reduces the steps necessary to handle tips as well as more securely storing the information in a single location.
