

CoCA Slides Project Presents: The 1982 – 1989 Slide Enterprise!

Center on Contemporary Art's mission is to serve as a catalyst for the advancement, development, and understanding of Contemporary Art.

Problem

CoCA possesses a large collection of slides and recently launched its Archives Project to assess, inventory, catalogue and digitize their extensive collection in order to share CoCA's history with its public. Although CoCA has had a number of volunteers over the years they do not have full time staff available to dedicate to the slide collection.

Tracey Johnson: trayjay@uw.edu
MLIS 2017

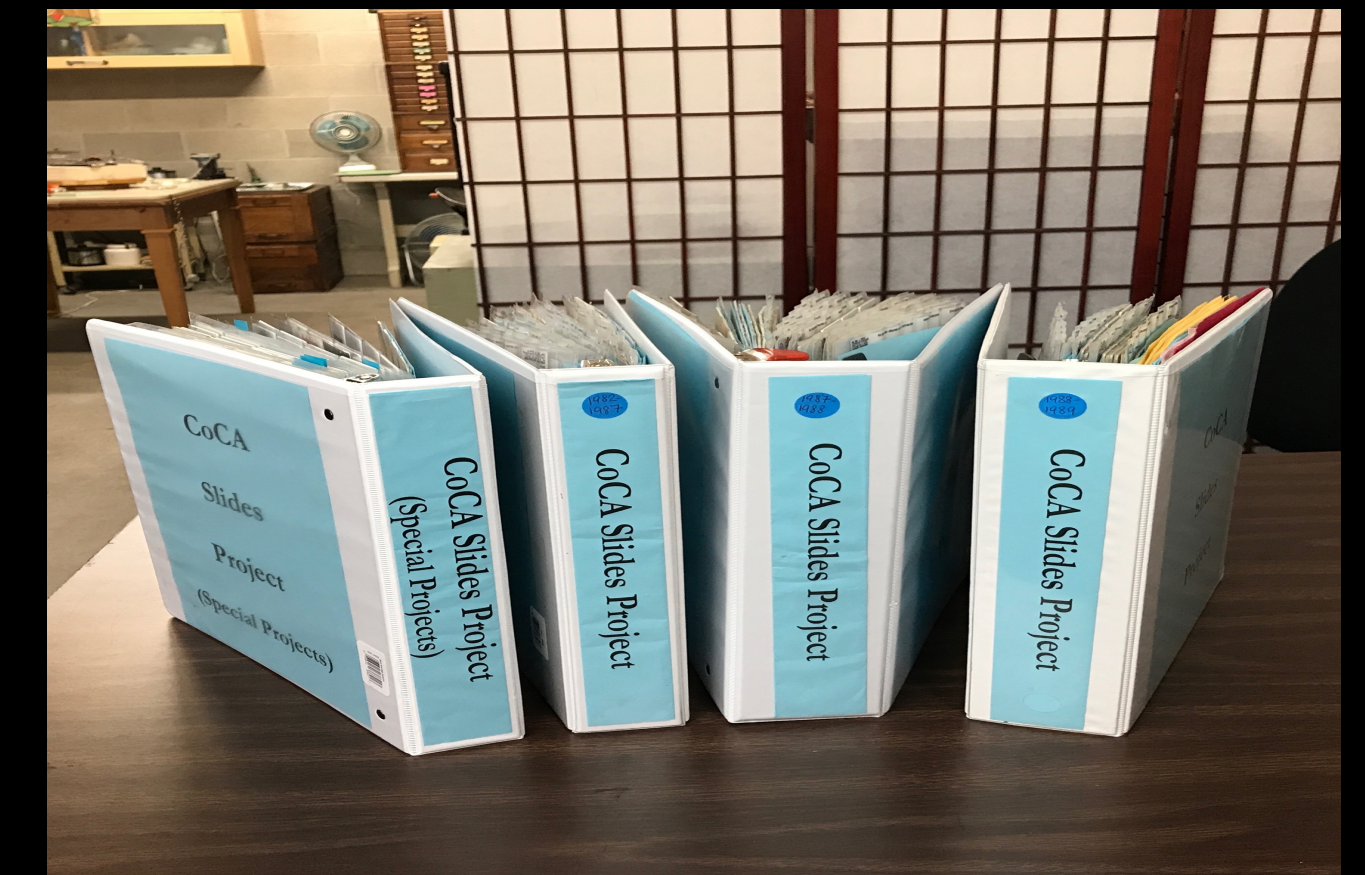

Need

Assess, inventory and prepare CoCA's slide collection for digital archival.

Deliverables

4 binders were created with dividers separating the slides by folder name, artist and exhibition. Each binder is labeled by the years covered and or Special Projects.

Next Steps

Scan prepared exhibition slides by sheet. Continue preparation work with sides.
