

FoodBuddy

You'll Never Eat Alone Again

Team: Xuchen Cheng, Jie Min, Yuming Xu, Xiaowei Zhang

Advisor: Greg Hay

In Association with:  Information School
UNIVERSITY of WASHINGTON

The Opportunity

In social networking theory the point is made that we learn most and get more opportunities from those who are not in our direct networks, but from the so called *elastic social networks*.

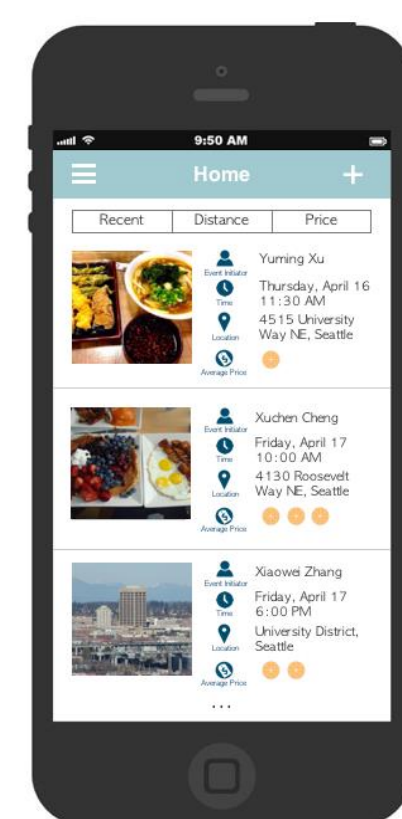

The Solution

- FoodBuddy – an events based mobile app
- Bridge the gap between technology and interpersonal relationships

Sign in to our app or create new account. Update your profile. View your notifications.

Look for interesting events. Connect with others by creating and joining the lunch or dinner.

View more information, participate in discussions, or join the event right away!

Future Iterations

- Online messages
- Restaurant reviews
- Restaurant reservation
- Tag Friends
- Meal payment

Technologies Used

axure
