## THE PROBLEM

How can we combat modern **social issues** and assure that our future generations are raised to be **progressive** and **socially aware** with technology?
Children need to be more exposed to **diverse groups** at a young age.

## SOCIAL IMPACT

**Social** issues are psychologically inherent in humans.
**Solving** issues of inequality fosters a culture where differences are respected.
**Expose** the youth to those sensitive topics at a young age.

## THE SOLUTION

An **interactive story-telling app** that will make children aware of **social differences**.
