

OTHERWORLD BALLOON MEDIA

Presented By: Ariel Gruz, Jayne Lee, Henry Morgan, Ace Sassaman

LET'S BEGIN WITH

PROBLEMS

Students from marginalized background are often not taught search strategies or storytelling narratives that are centered around their own identity. The Otherworld Balloon Media helps to aim stories and research guides around children of all diverse backgrounds.

CATER TO STUDENTS

SOLUTIONS

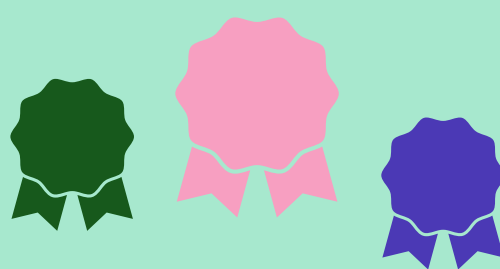

THE GOAL

is to give children, especially BIPOC, access to counter storytelling narratives, and regain control over their own education. We have created a guide for parents and educators to encourage the self education of young learners.

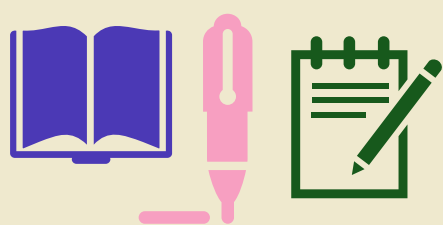

DATA

We have collected information pertaining to the Otherworld Balloon Media stories to create research guides and storytelling narratives to help diversify a child's learning environment.

RESEARCH

TANGIBLE GUIDES

WE'VE COMPILED

an annotated bibliography, a literature review, and a series of lesson plans for children 6-11 to help parents and educators have counter research guides of educational resources.
