

TellToo

Problem

Human beings have an innate drive to fulfill their base needs, among them finding a sense of belonging, bonding with one another, and having their feelings and observations validated.

We believe that current predominant social media platforms fall short of fulfilling these needs.

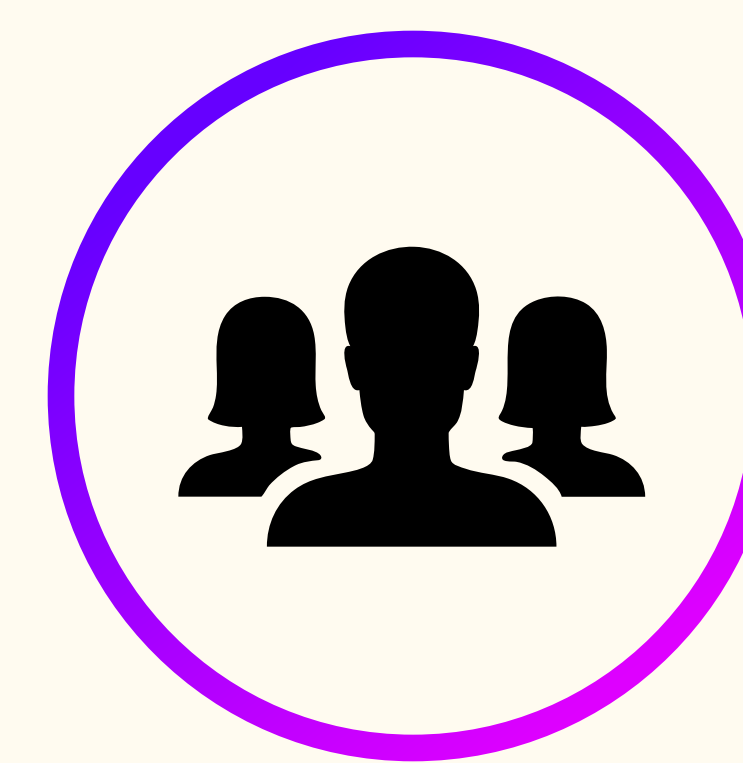

Journey

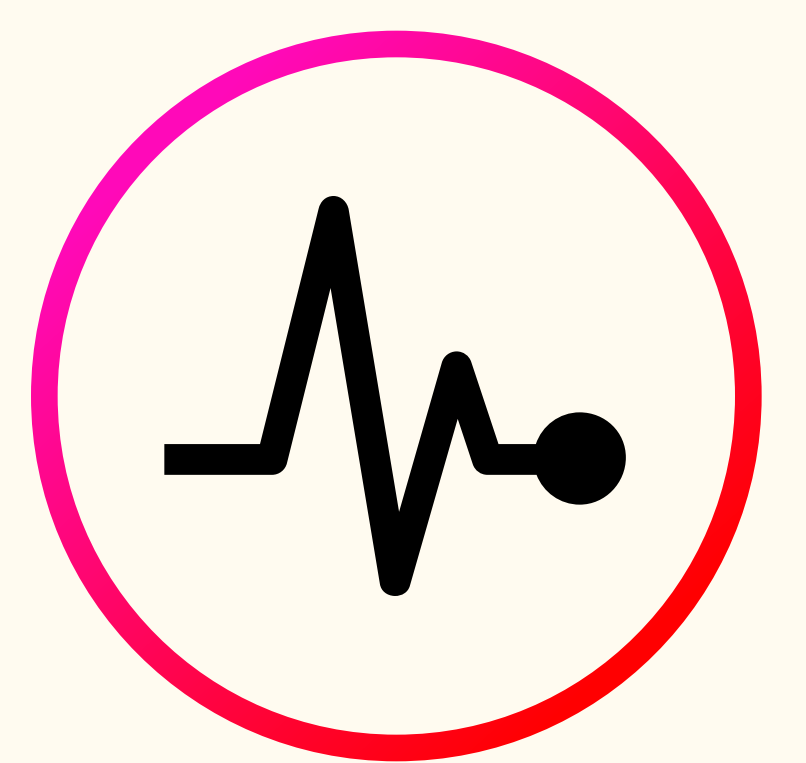

Voice

Connection

Community

Simplicity

Solution

Story telling is the most pleasurable and memorable way of communicating information.

We've built a platform to cultivate the natural sharing of stories.

Features

- Audio Stories
- Story Connections
- Story Impermanence
- Story Collection
