

HEARING EDUCATION

HEAR YOUR WORLD

SOUND SUSTAINABILITY

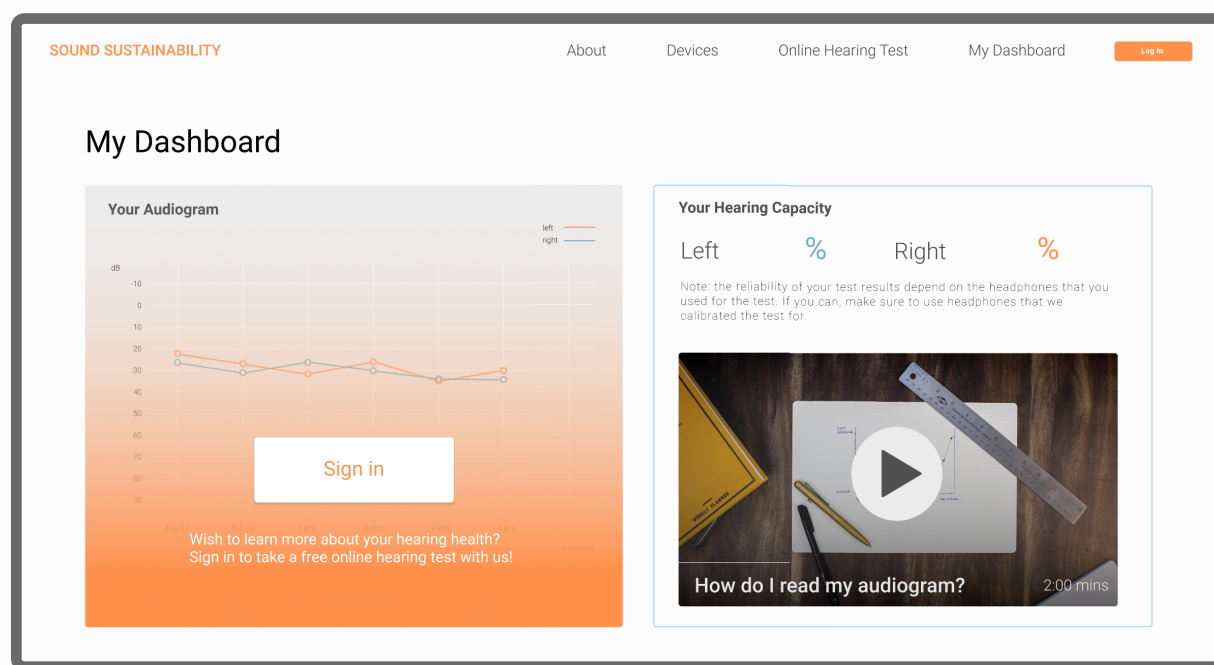

Through research, we found out...

54% of people **NEVER** had their hearing checked

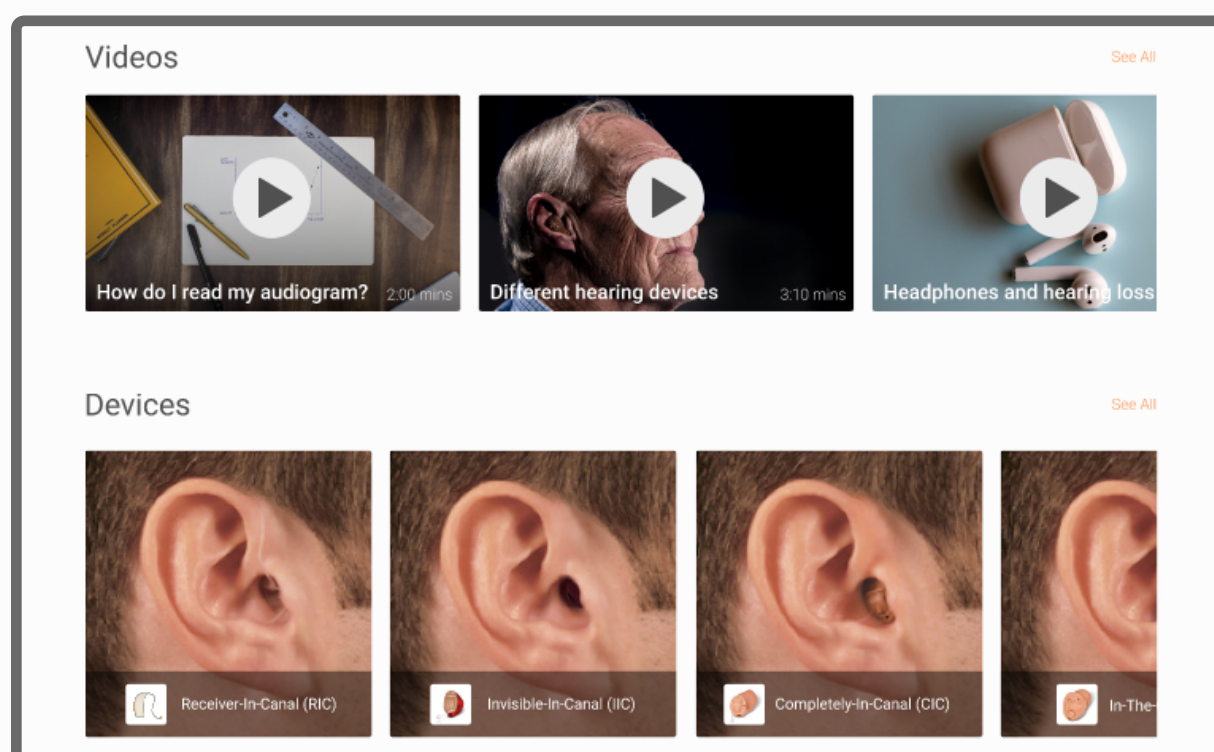

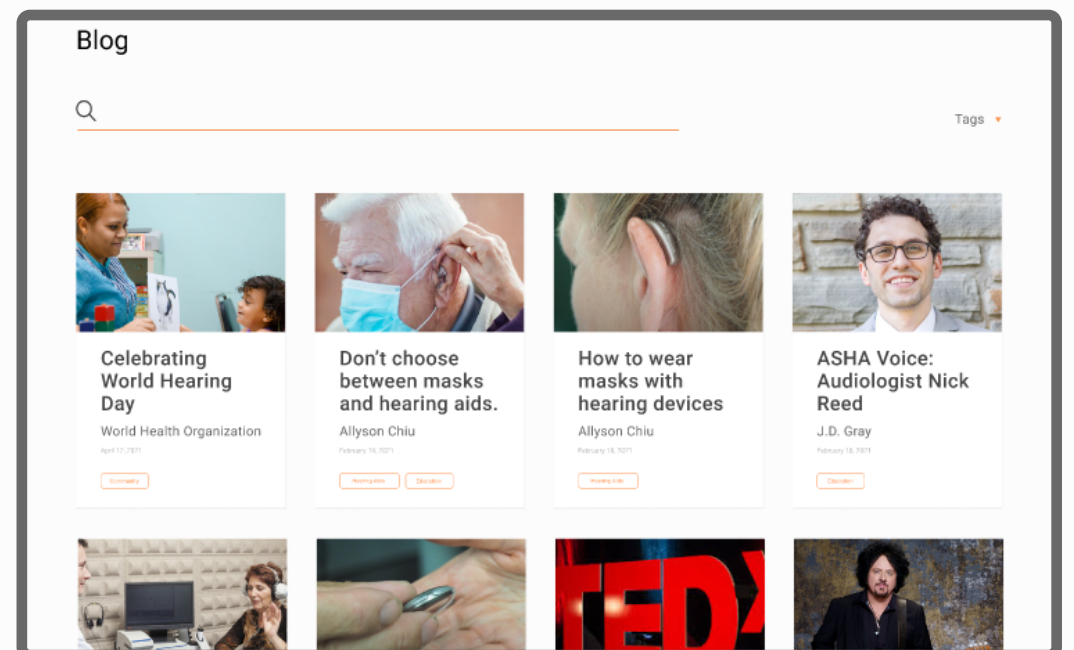

60% of people are not comfortable with wearing a hearing aid.

we wish to raise awareness about personal auditory health.

We provide free online hearing test and educational video on audiogram if users are unfamiliar with it.

Sound Sustainability posts hand selected articles on hearing education that are well-categorized.

Each user will receive a personalized dashboard that is tailored to their hearing health. For examples, users can learn more about different hearing devices in order to find the best device that fit themselves.
