

TapEat

About the Project

We strive to change how restaurants and restaurant-diners approach the **WAIT LINE** problem by making information **ACCESSIBLE** and **TRANSPARENT**.

We develop a lightweight and **EASY-TO-USE** system to help businesses better manage their staffs and improve **CUSTOMER SATISFACTION**.

How does it work?

Search for a place to eat.

Check details & Make a selection

Confirm & Get in line.

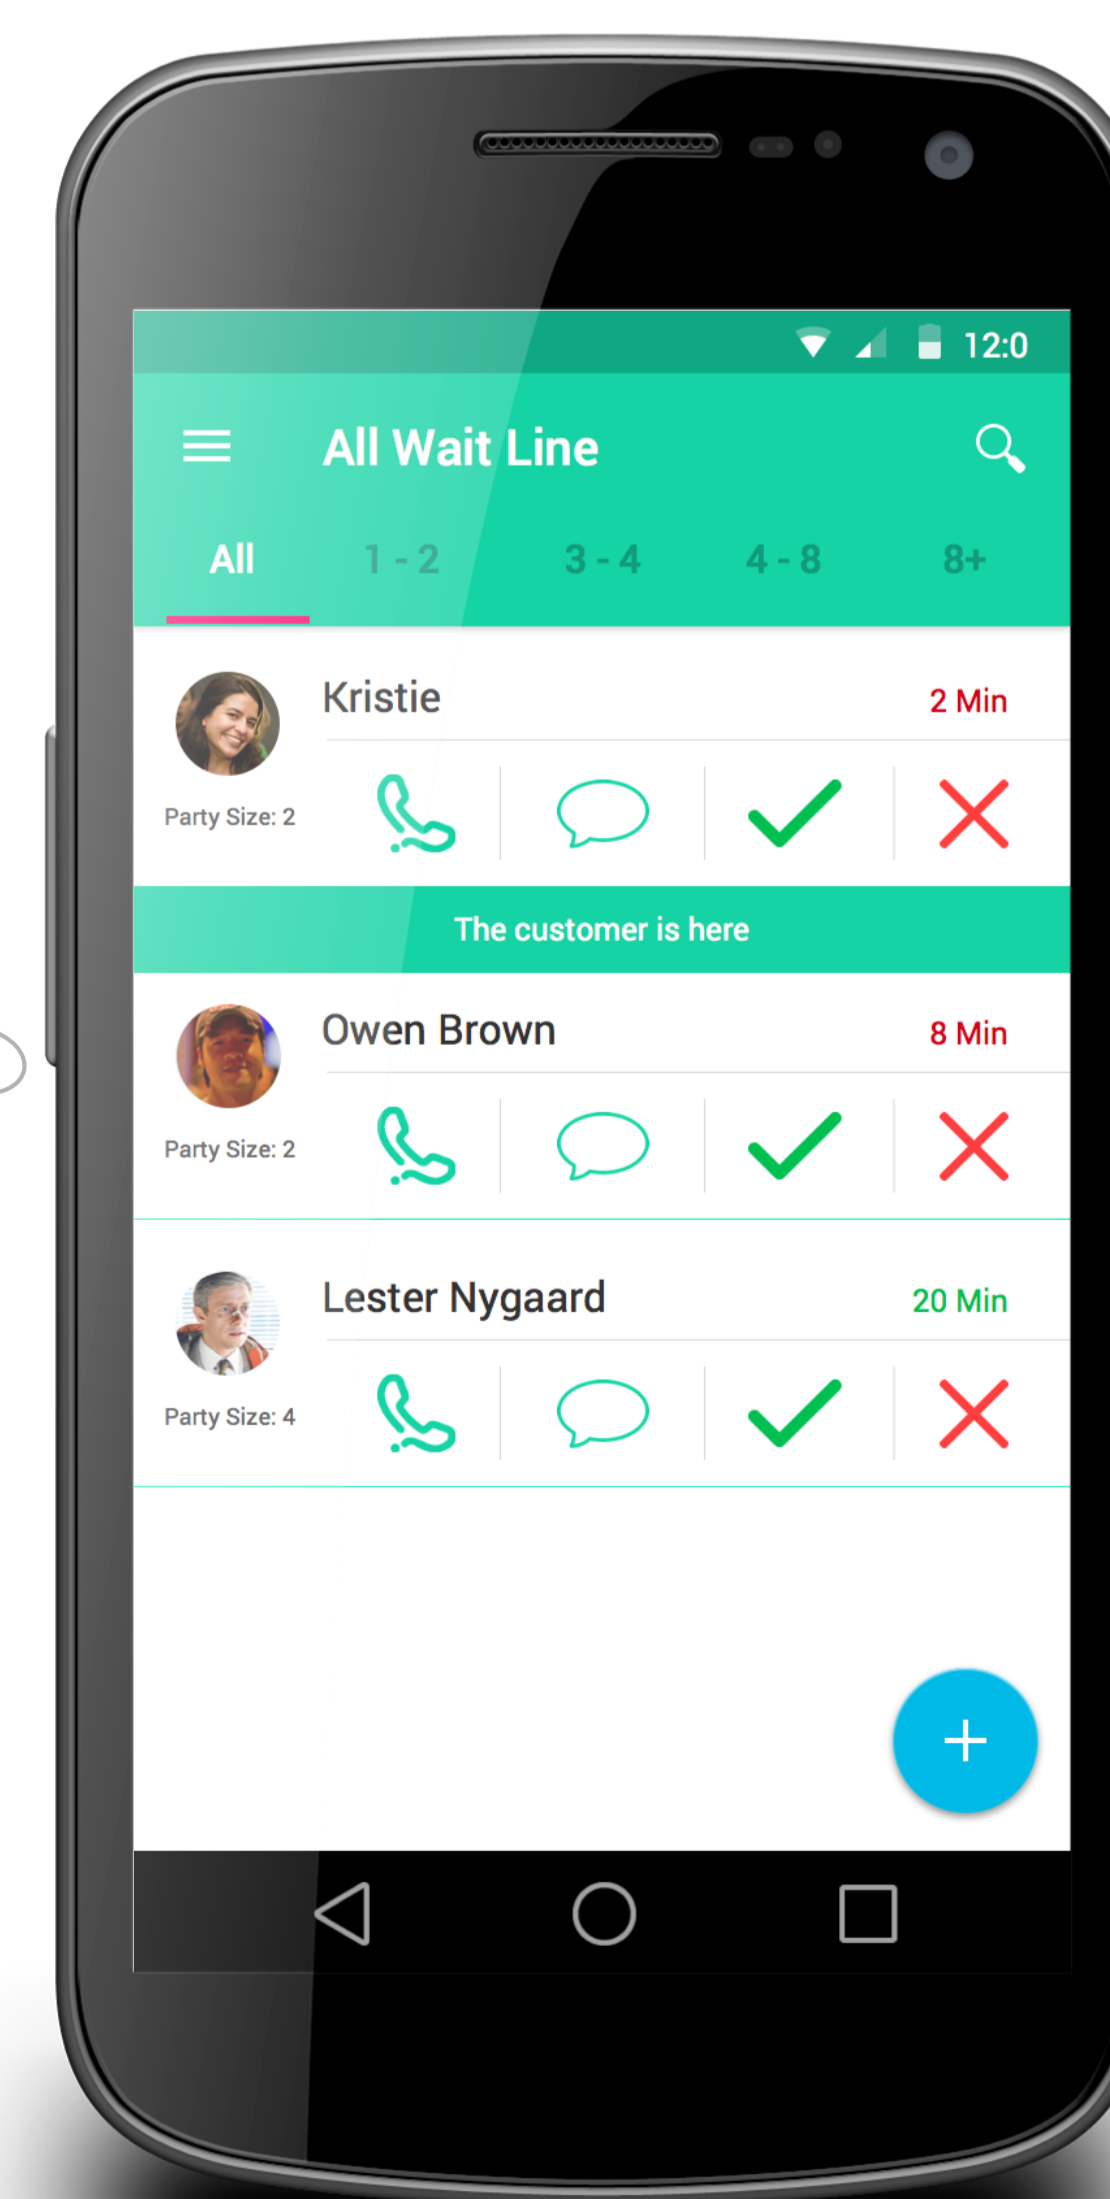

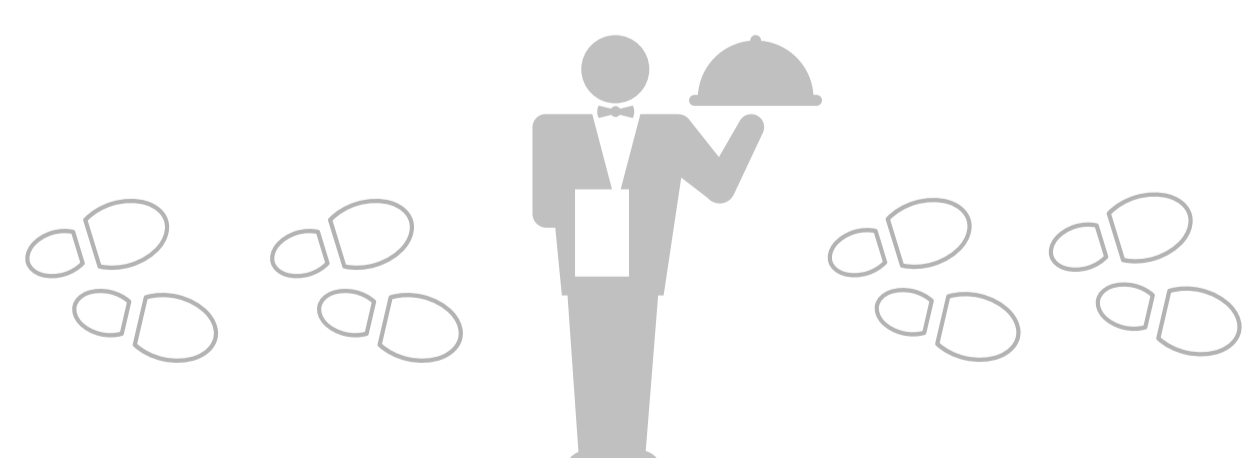

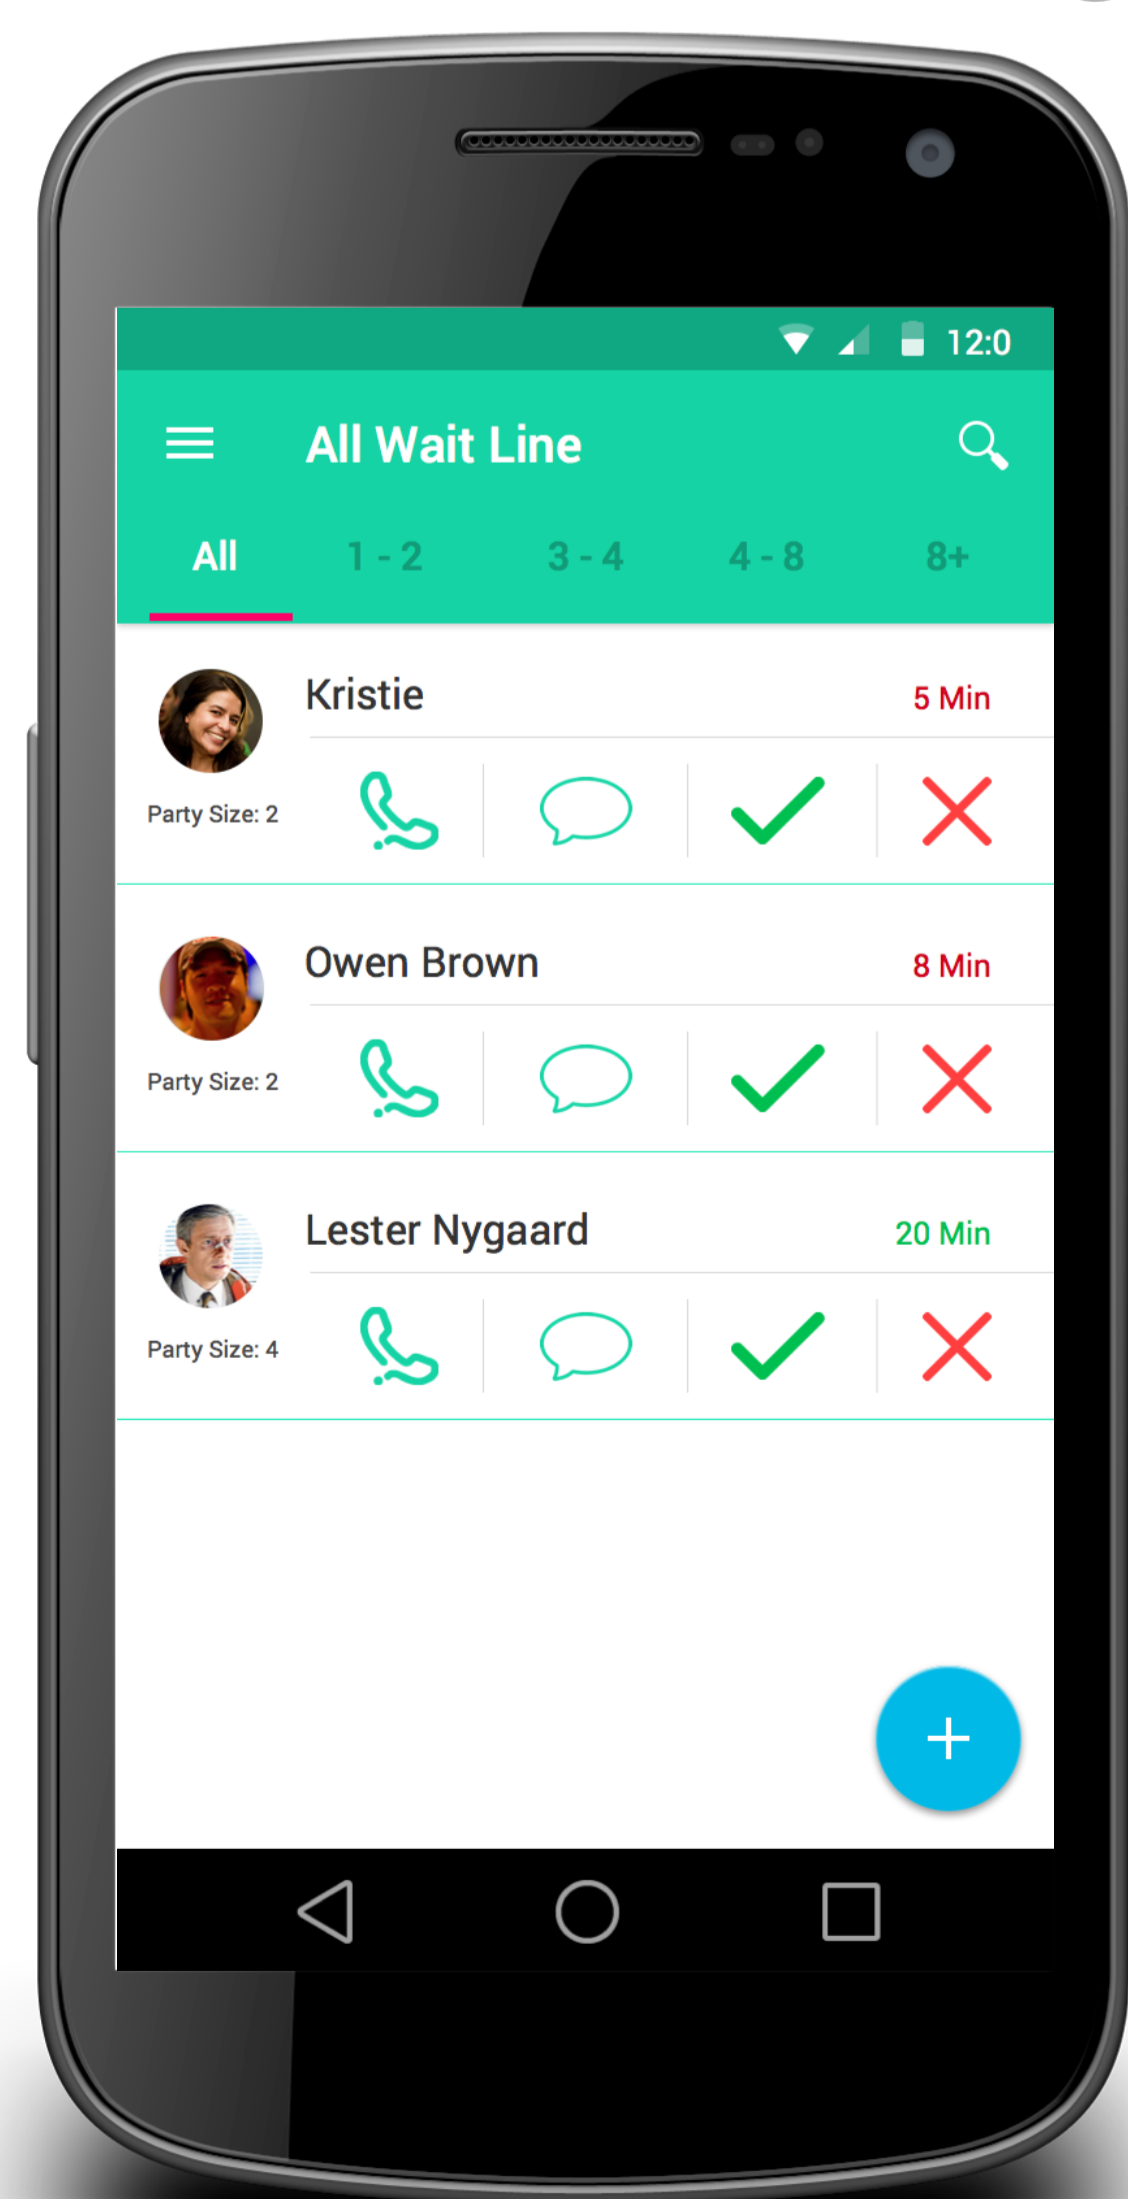

Wait for notification.

For the restaurant:

View the detailed wait list.

Notify the next customer when a table is ready.

Receive notification when customer arrives.

Try it out:

Find out more.
