Problem

69% of Millennials get news at least once a day.¹

News sources are too fragmented and modular to provide a concise and comparative overview of political candidates and topics.

Users need a consolidated stream of news from many different sources.

Solution

Vantage is a cross-platform news aggregation website with a focus in breadth, instead of depth.

Cross-platform

Vantage is on multiple platforms:

Content Curation

We provide the tools to filter by topics, candidates, or search terms.

Time-sensitive

Trending topics and articles are continually updated and calculated. You need news now, so why wait?

Aggregation

Many sources. One stream.

Responsive

Our user interface changes to meet your needs.
