Problem

**69%** of Millennials get news at least **once** a day. [1]

but...

News sources are too **fragmented** and **modular** to provide a consice and **comparative overview** of political candidates and topics.

so...

Users need a **consolidated** stream of news from many **different sources**.

Solution

Vantage

is a cross-platform news aggregation website with a focus in **breadth**, instead of depth.
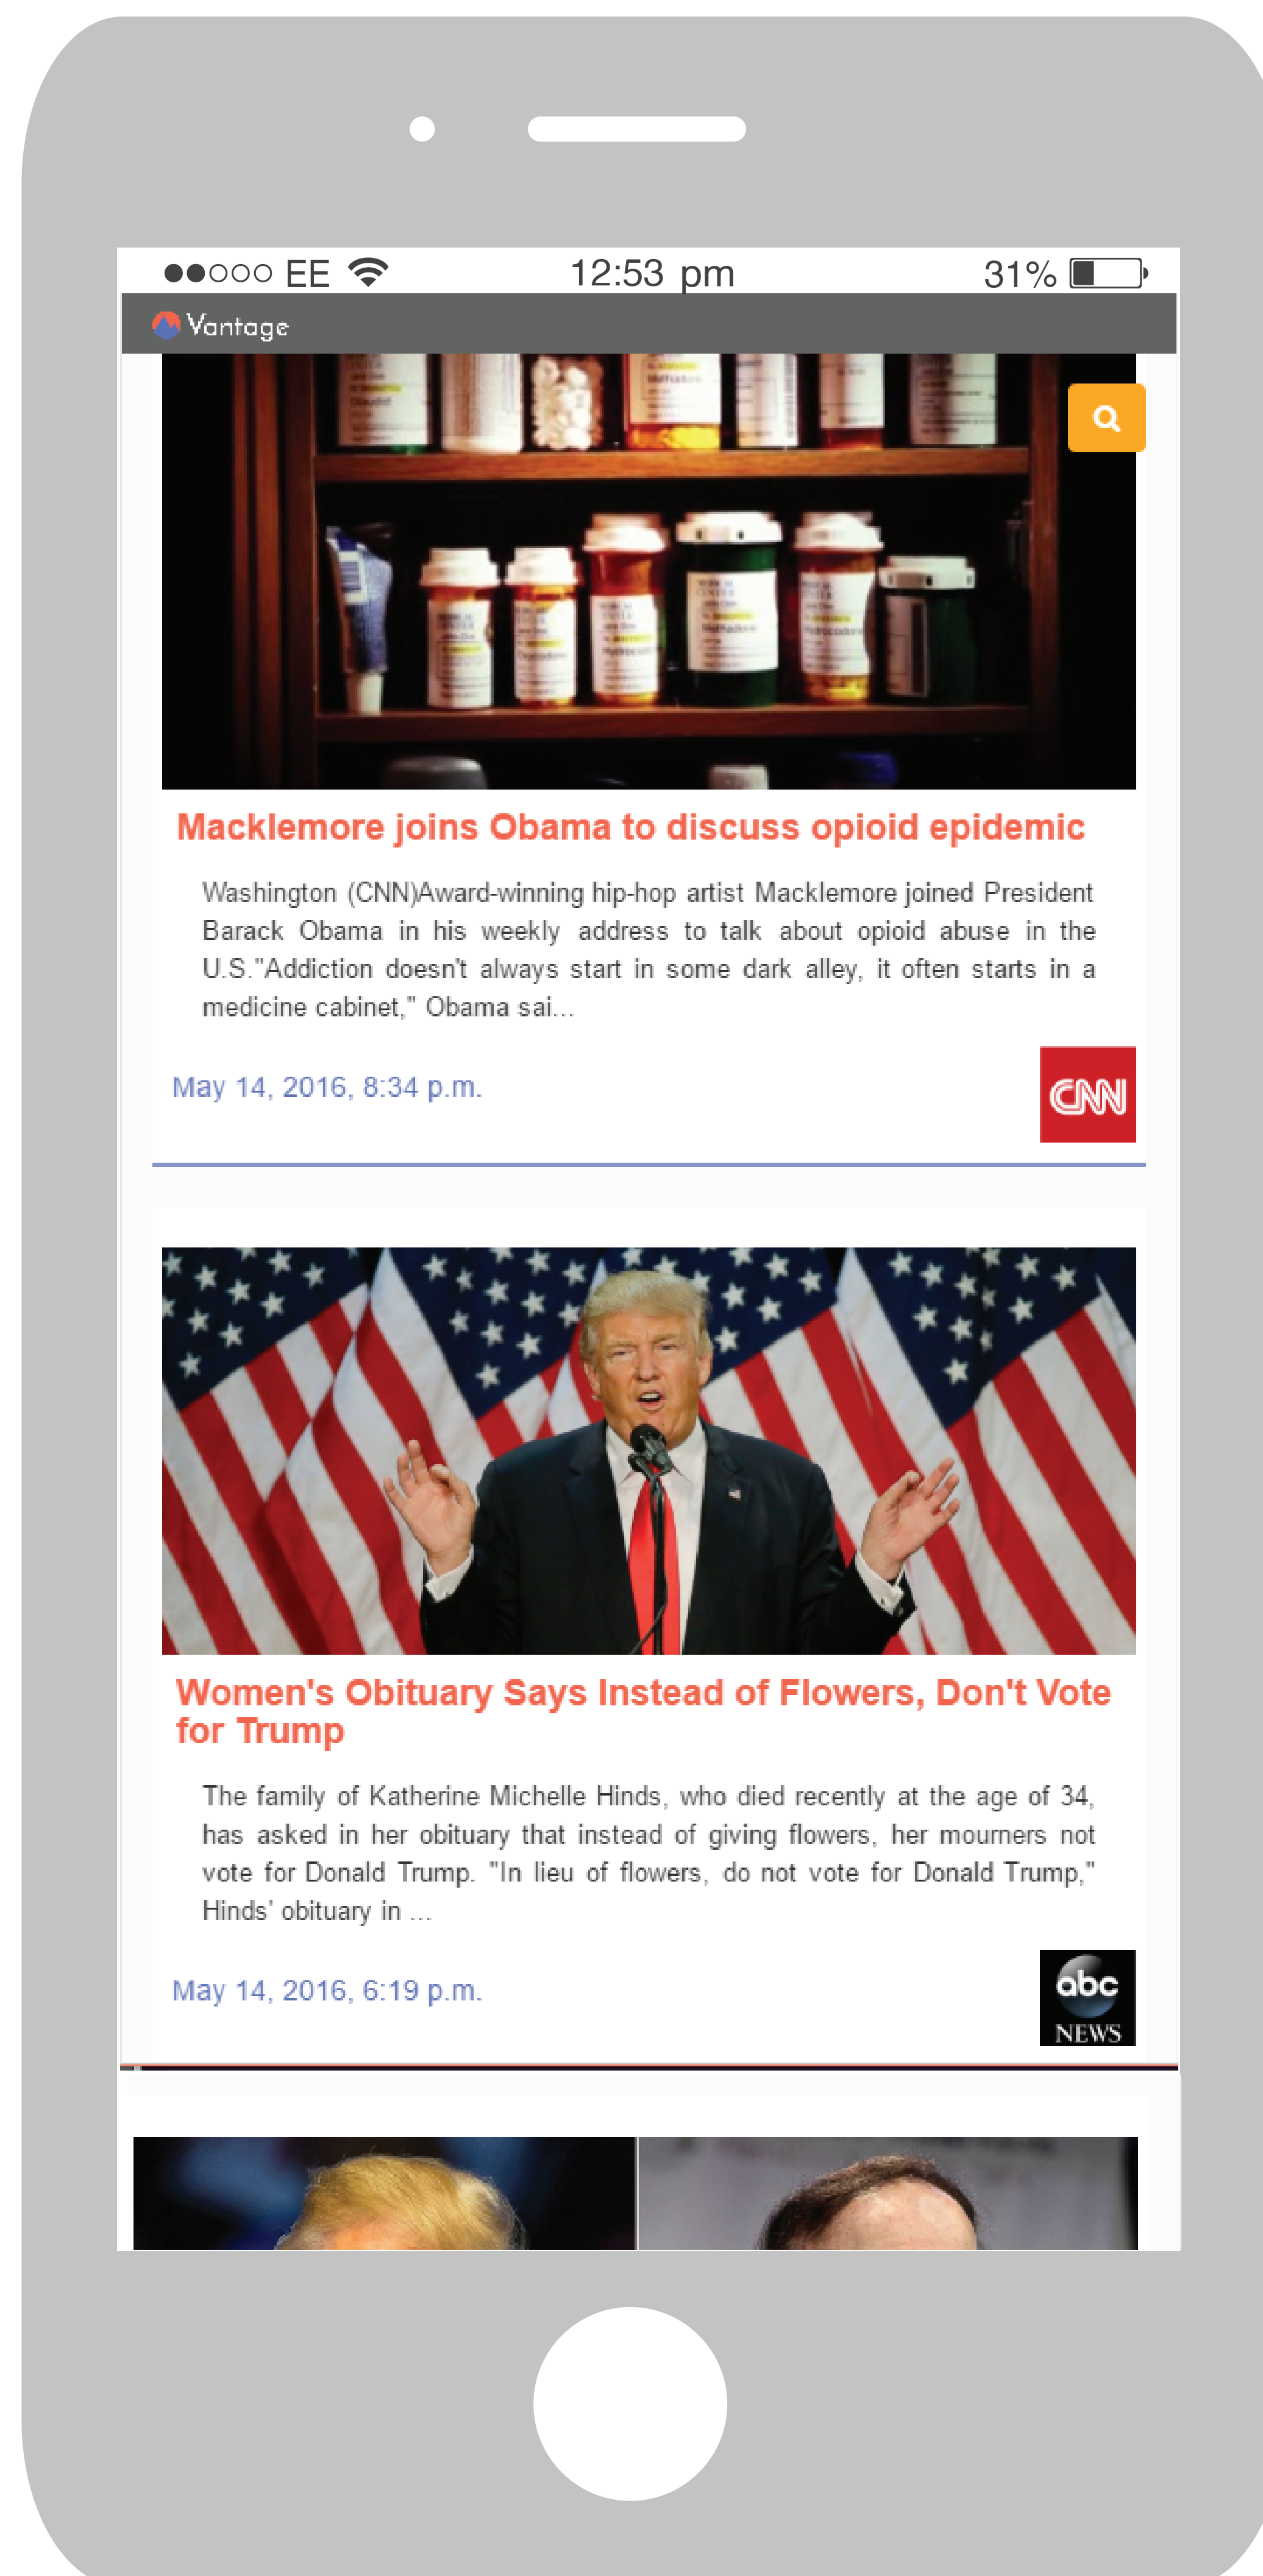

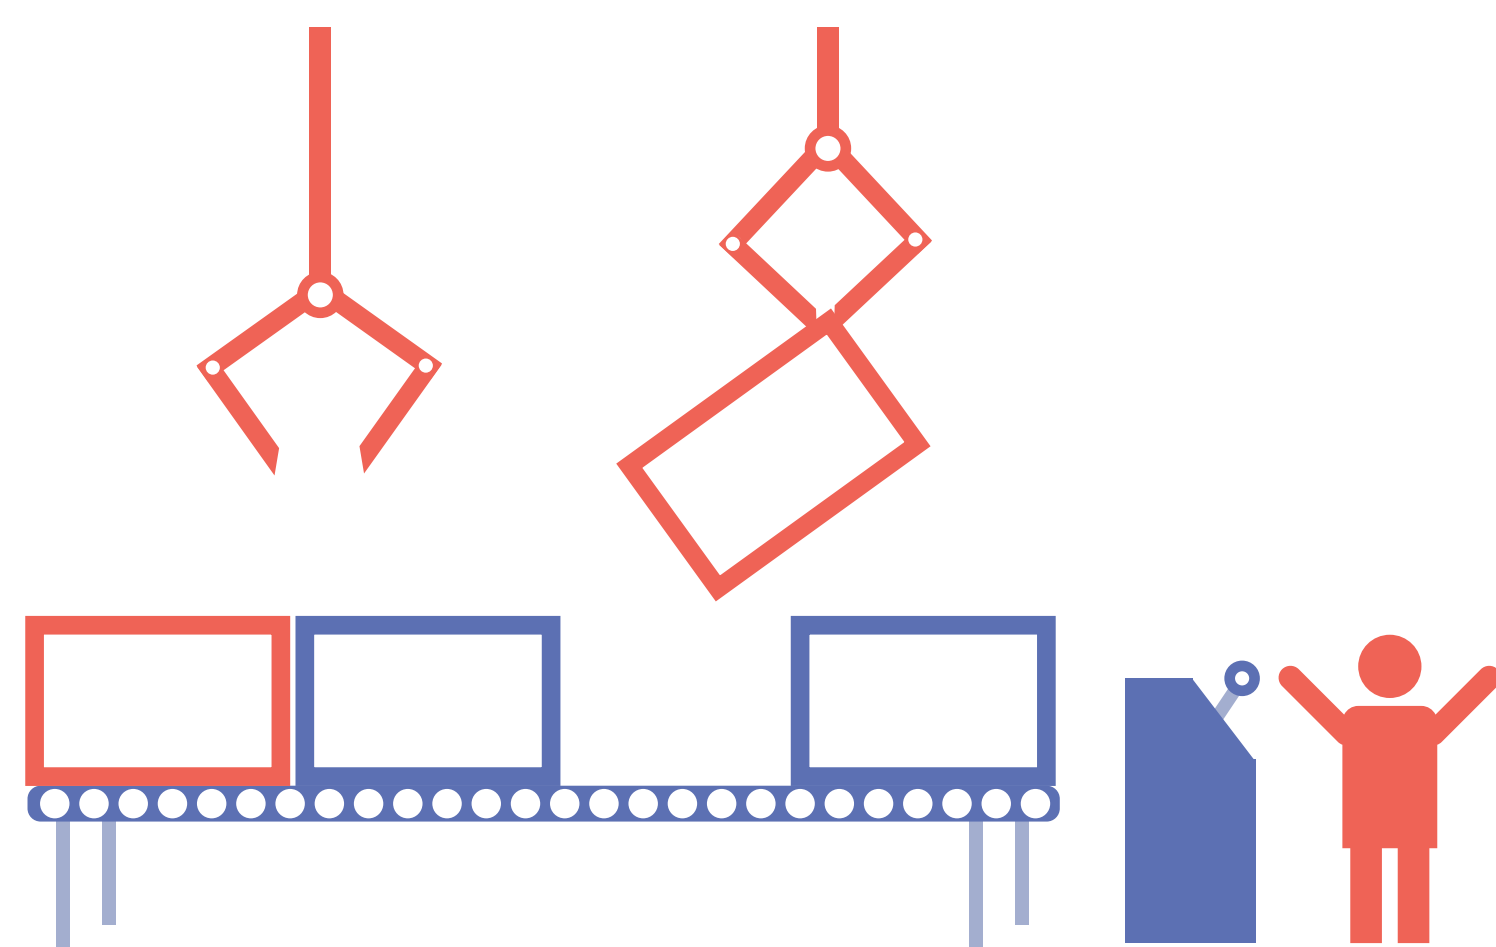

Cross-platform

Vantage is on multiple platforms:

Content Curation

We provide the tools to filter by topics, candidates, or search terms.

Time-sensitive

Trending topics and articles are **continually** updated and calculated. You need news now, so **why wait?**

Aggregation

Many sources. One stream.

Responsive

Our user interface changes to meet your needs.
